The

"DUNHAM COLLECTION"

★ *Some Introductory Notes*

FOR more than fifty years, the Dunham Collection was and is today probably the best known private numismatic collection formed in America. This is due first, to the constant active interest in American Numismatics always manifested by Mr. Dunham and secondly, by his kindly and friendly interest in affairs of the American Numismatic Association, from almost its inception to the time of his passing in 1936.

The fame of this great collection is due in a large measure to Mr. Dunham's broad vision and wisdom in acquiring, whenever the opportunity offered, the greater rarities.

In 1904, thirty-six years ago, he made a special trip from Chicago to New York to attend the Sale of the H. G. Brown Collection, sold by Mr. Lyman H. Low, the then Dean of American Numismatic Merchants, for the sole purpose of acquiring the famous 1804 Dollar, known as the "Dexter Dollar," one of only six originals known and ever discovered.

Two years later, in 1906, he came to Philadelphia to attend the Sale of the Harlan P. Smith Collection and purchased the "King of all Rarities," the 1822 Half Eagle, one of only two specimens known outside of the U. S. Mint Collection. This gave Mr. Dunham the distinction of being the only collector in the world ever to own both of the greatest and most famous of all American Numismatic Rarities!

While these two great coins are the highlights of the Collection, they are far from being the only rarities in the Collection. The Collection includes practically every date of the United States Coinage, from the Half-Cents to and including Twenty Dollar Gold Pieces.

A resume of the U. S. Series is given in the following pages. But attention is called to the fact that besides the regular issues, the Collection is rich with fine representations of the various issues pertaining to American Numismatics such as the largest collection of Encased Postage Stamps ever to come on the market, and I believe the largest ever formed and in existence; an extensive collection of the Hard Times Tokens or Jackson Cents; a fine series of Canadian coins and tokens with many rarities; United States Fractional Currency; Confederate notes (more than 2,000 different varities); a fine selection of foreign gold and silver; rare medals, etc.

A Collection of such magnitude and importance cannot be adequately described in an announcement booklet, but a fair idea of its extent and wonderful content can be gleaned from the brief description which follows.

Naturally, I feel greatly honored in having the opportunity of offering this celebrated Collection to the American collectors. I have had the pleasure and good fortune of having been personally and intimately acquainted with Mr. Dunham for a period of more than thirty years. I realize the importance of the task in properly and accurately cataloging such an important Collection. To do so I'm determined to publish a catalog in the production of which I am sparing neither time, labor nor expense. And in the finished catalog I feel confident you will recognize it to be what I am earnestly endeavoring to make it, the most elaborate catalog of its kind ever published, one which you will be proud to own and which will always be an inspiration and of recognized value to you.

A Brief SUMMARY *of the Extent of the* DUNHAM *Collection*

UNITED STATES GOLD COINS

Gold Dollars: Complete collection of the Philadelphia Mint and many of the rarest Branch Mints. A perfect brilliant proof of 1875.

Quarter-Eagles: From the first year of issue, 1796 (both varieties) to the late dates. All early rarities, 1797, '98, 1826, etc. A brilliant proof gem of 1875.

Three-Dollar Gold Pieces: A complete collection of all dates, including a matchless superb proof of 1875, (last record $1,750.00)—only twenty specimens coined and probably only about half that number now known to exist.

Four-Dollar Gold Pieces: 1879 and the excessively rare 1880, also the excessively rare 1879 with coiled hair.

Half-Eagles: All dates issued except one, including the rarest of all United States coins and probably the rarest in the world, the 1822 Half-Eagle, of which only two specimens are known outside of the U. S. Mint Collection, and this one is by far the most choice. The first to be offered in thirty-four years. All rarities from 1819 to 1834; the 1829 small date; later dates in proof.

Eagles: Complete set of all dates from 1795 with the early dates in choice condition and the major portion of the later dates in brilliant proof. The 1875 is gem proof.

Double-Eagles: From the first year issued for general circulation, 1850 to the '20's, with many from 1860 to 1915 in brilliant proof.

Pioneer Gold: A fine representation of this interesting series, including a brilliant uncirculated octagonal $50.00 Gold Piece, together with a brilliant proof specimen of one of only thirteen known of the Kellogg & Co. Fifty-Dollar Gold Piece, (last record $2,150.00).

The UNITED STATES SILVER COINS

This series is complete from the silver Three-Cent Pieces to the Dollars, with practically all dates.

U. S. Silver Dollars: Of course, the outstanding coin in this Series is

the 1804 Dollar. Undoubtedly the most famous and best known rarity of our entire coinage, and one of the most famous coins of the entire world. This will be the first time in eighteen years that a specimen of this great coin has been offered at auction. The full history, minute description, copies of affidavits of genuineness, dramatic description of the scene in the auction room when this coin was purchased in 1885 by John W. Scott for Mr. Dexter, will be fully given in the catalog. It will be the most complete description of this great coin that has ever before been published.

The series of Dollars is complete, with 1794, 1836 both varieties, 1838, 1839, 1851, 1852 and 1858, and of course, all other dates.

Half-Dollars: All dates, including a nice 1796. The *Quarter-Dollars* include the 1823. All dates of *Dimes,* with an exceptionally nice 1804. The *Half-Dimes* include one of the finest 1802 known to exist.

The U. S. Copper Coins: A nice Collection of *Large Cents* of all dates with many in very choice condition. The *Half-Cents;* a beautiful collection with all dates, including one of only two specimens known of the 1852 large berry variety in proof condition: *Hard Times Tokens* or *Jackson Cents:* one of the most extensive collections ever offered with practically all the rarities.

Encased Postage Stamps: The largest collection ever offered, and I believe the largest ever formed. One Hundred Sixty different varieties. The nucleus of this great collection is the famed collection formed by the well known and beloved Chicago dealer, Ben G. Green, whose collection of some One Hundred Thirty varieties was purchased intact by Mr. Dunham in 1914, over a quarter of a century ago. The greater portion of the specimens came from the famed Deats and Wilcox Collections. The manner in which this collection of Encased Postage Stamps will be cataloged, described and illustrated will form an excellent authoritative reference work for the future, as there are many specimens in this Collection not listed in the Standard Catalog.

The Balance of the Collection: This includes all of the U. S. Minor Coins. Many Patterns. An unusually fine set of U. S. Fractional Currency, including the Allison and New Note; collection of Confederacy Currency of some Two Thousand different varieties; one of the largest collections ever offered; Canadian coins and tokens, a very extensive collection with many rarities. Also, unusual and rare Foreign Gold and Ancient Gold, Foreign Silver and Medals, etc.

DESCRIPTION *of the* CATALOG

THE CATALOG, which is now under way to completion, will be recognized I am sure, as worthy of the fame and importance of this Collection.

It will be of large size, 8½ x 11, printed on a high grade enamel paper, fully illustrated with photographic reproductions of the actual coins. The numerous rarities will not only be illustrated, but their history, records, etc., will be given fully so that the Catalog will really be a work of reference and of value to every collector.

The description and history of the 1804 Dollar will be the most extensive ever published on this great coin. Photostatic copies of the original affidavits will be reproduced: A dramatic account of the Sale in 1885, as written by J. W. Scott, will also be reproduced. The illustration of the coin will be given both in its original size, also in much enlarged size so that collectors can easily study and recognize the peculiarities of its die variety, which is entirely different from that of any other early Dollar. The original description will be printed in colored ink on silver paper.

The 1822 Half-Eagle will be equally interestingly treated; its original description and illustration will appear on gold paper, also an enlarged illustration of the coin will be given for careful study of its variety. In short, it will be a Catalog you will be proud to own and one which you will prize in years to come.

The manner in which this beautiful Sale Catalog will be distributed is fully told you in the letter which accompanies this booklet. But I do want to call to your attention that the Price List of this Great Sale will be

supplied you for only $1.—(Catalogs and Price Lists of Sales not near as important have sold for $5.00 and more.)

It is advisable to order the Price List now as the $1.00 price will positively prevail for a limited time only. After the date of the Sale the price will be $2.00 for the Price List alone.

To the younger collector and collector of modest means I say, do not be awed by the rarities in this collection. It contains all of the cheaper coins also. This will give everyone an opportunity of owning some coin from this most famous Collection.

A convenient Order Form for the Price List is herewith enclosed. I advise you to use it now.

Cordially yours,

FOREWORD

One evening in June, 1910, while Mrs. Mehl and I were in Chicago on our belated honeymoon, a refined looking gentleman called on us at our hotel, introducing himself as Mr. Dunham. "I came to pay my respects to both of you," he said. He handed Mrs. Mehl a box of candy, and he handed me a box, the contents of which he invited me to examine, admonishing me to do so very carefully.

I recall there were several important American numismatic rarities, but just what they were I do not now recall for the reason that the "shining light" of the little lot was no less than the "King of American Coins," the 1804 Dollar! The first I had ever seen.

Being young in numismatics (and in years), at the time, but always having heard of the great 1804 Dollar, you can imagine the thrill I then and there experienced of so unexpectedly meeting a famous collector and seeing for the first time this great coin and having the privilege of handling it!

We spent a most delightful evening with Mr. Dunham as his guests. And from that day on, and for the next quarter of a century, my relations with Mr. Dunham were of intimate and warm friendship. His sound advice and friendly encouragement I have always appreciated and treasured. Also, from that evening in June, 1910, my dream and ambition was to some day be the fortunate dealer to catalog the famous "Dunham Collection." The courtesy, kindness and friendliness manifested by Mr. Dunham on our first meeting was typical of his gentle nature. This was true with everyone he ever came in contact with.

William Forrester Dunham was born at Barnard, Vermont, October 3, 1857. In early life he was a school teacher, and later, a wholesale and retail grocer. He studied pharmacy and became one of the leading druggists of Chicago. He retired from active business in 1916. He was a graduate of Tabor College, Iowa, and the University of Illinois. He was a member of the Chicago Stock Exchange, the Press Club of Chicago, and the various bodies of the Masonic Fraternity. He was also a governing life member of Chicago Art Institute, and Honorary Curator of Medallic Art of that Institution.

He was a world wide traveler, having toured Europe in 1890. He made a trip around the world in 1920, and in 1934 again visited Europe, Africa, and South America. He compiled and published pamphlets on Encased Postage Stamps, Hard Times Tokens, and Canadian Coins and Tokens.

Mr. Dunham was an ardent numismatist, beginning his Collection in his early years. He took an active interest in the affairs of the American Numismatic Association. He attended regularly the National Conventions; served as a member of its Board of Governors, as well as Chairman of the Board. He was a charter member of the Chicago Coin Club. He passed away on October 12, 1936, at the age of 79 years.

The "Dunham Collection," for a period of more than a half century was probably the best known privately owned Numismatic Collection in the country. This was due to his constant and active interest in numismatics, also to his broad vision and numismatic knowledge. He recognized the importance and the potential values of the greater American rarities early in his collecting career and lost no time in acquiring these rarities at the very first opportunity. In 1904, he made a special trip to New York to attend the H. G. Brown Sale in order to acquire the 1804 Dollar. Two years later he attended the sale of the Harlan P. Smith Collection in Philadelphia and acquired the "King of All Rarities," the 1822 Half-Eagle, at a then unheard of price of $2,165.00, outbidding all of the other great collectors present at the sale. By securing this great rarity, and the 1804 Dollar, Mr. Dunham achieved the distinction of being the first and only collector in the world to own both, an original 1804 Dollar and the 1822 Half-Eagle, the two most rare and most famous coins of the United States mintage. He also lost no time in acquiring such rarities as a complete brilliant proof set of the gold of 1875; a choice 1802 Half-Dime; an original proof 1852 Half-Cent, one of only two specimens known; all of the early U. S. gold with the only exception of the 1815

Half-Eagle, which Mr. Dunham purposely postponed getting, as this coin would have completed his Collection and he feared that he would lose interest in numismatics if he completed his Collection.

This is, therefore, the first Coin Sale ever held in the world where both of the greatest American rarities are offered at one time.

Although I have had the pleasure of handling some of the most famous and valuable Numismatic Collections during the past forty years, but no Collection has afforded me the thrill which this Collection has. It is the realization of a lifelong ambition.

In a Collection of this magnitude it is quite impossible to enumerate all of the great and lesser rarities in this Foreword. But it is equally impossible to resist the temptation to mention just a few of the rarities besides the 1804 Dollar and the 1822 Half-Eagle. The Collection contains a magnificent brilliant gold proof set of 1875; all of the Quarter-Eagles; the three different varieties of the $4.00 Gold Pieces; a complete set of $3.00 Gold Pieces; a brilliant proof Kellogg & Co. $50.00 Gold Piece; the largest Collection of Encased Postage Stamps ever formed; an extensive Collection of Hard Times Tokens, and one of the largest Collections of Canadian Coins and Tokens ever offered. Rare American Colonials, Paper Money, including a Collection of some twenty-five hundred different varieties of Confederate Currency, and then hundreds of scarce and rare foreign gold and silver coins; platinum coins. In short, I feel justified in stating that this is not simply a Coin Sale Catalog, but really and truly a "Library of Numismatics."

The CATALOG: From the moment I secured this great Collection, the only thought I had in mind was to produce a Catalog worthy of it. This I hope I have succeeded in accomplishing. I do know that I have spared neither time, labor nor expense in this effort. The better part of an entire year has been devoted by me in the planning, preparation, and final completion of this Sale Catalog.

The ILLUSTRATIONS: I have departed from the usual custom of having "plates" in the back part of the Catalog. The illustrations here accompany the descriptions of the coins so that you can "see" the coin while you read its description. These illustrations are from photographs of the actual coins. While these photographs are as good as can be produced, but as we all know, it is quite impossible to properly photograph a coin. The brilliancy and attractiveness of a mint luster or a brilliant proof coin can never be adequately reproduced in a photograph. Therefore, the illustrations do not "do the coins justice"—the coins are much better than the illustrations would signify.

Have endeavored to throttle down my enthusiasm in the description of the condition of the coins. I am quite certain that you will find every coin attributed and classified most fairly.

The initial announcement of this Sale received really sensational response. Nearly 90 per cent of those who received the announcement brochure responded with an order for the Catalog. This so far exceeded my expectations that it was necessary for me to twice increase the order for the number of Catalogs. It is now my hope that my efforts to give you not only a fine Catalog of a great Collection, but really a "Library of Numismatics" will be received by you with the enthusiastic responsiveness I so diligently strived to merit.

Fort Worth, Texas, April 29, 1941.

The Terms of This Sale Are As Follows:

In a Sale so huge and important as is this one, you realize that it is imperative that uniform terms apply to all. I respectfully and earnestly ask you to kindly read the following terms before bidding. No exceptions from these terms can nor will be made for anyone.

All bids are entered as received and the lots allotted to the highest bidder. Where two or more highest bids for the same amount are received for the same lot (and this happens very frequently) the first bid received gets the lot. Where two or more unlimited bids are received for a certain lot, the lot is purchased for the first received. Unlimited bids are executed at an advance of five per cent (5%) over the next highest bid. However, no unlimited bids will be entertained for Lot Nos. 1058 and 2095, the 1804 Dollar, and the 1822 Half-Eagle.

When I receive your bids, I consider myself as your agent and execute your bids at as much under your bids as the next highest bid will permit. In other words, your bids are executed for you by me just as faithfully as if you had yourself been present at the Sale.

No commission charge will be made on purchases made for you at this Sale.

All lots are sold just as cataloged. No lot is broken under any circumstances. Please be sure and bid by the number of the lot and at SO MUCH PER PIECE. As an example, if there are ten pieces in the lot and you want to make your bid $1.00 for the lot, make your bid 10c, and not $1.00.

I guarantee all coins and notes to be genuine unless otherwise described or stated in the Catalog. **But all claims of any nature or for any reason must be made within thirty days from date of Sale.** My guarantee means something to you. Please remember that there are more than forty years of proven successful numismatic experience and ample financial responsibility back of my guarantee.

NOTICE TO NEW BIDDERS: Buying coins at auction is not the same as receiving coins on approval. The coins are bought for you on your order and you are, of course, expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid on the correct lot you desire and at SO MUCH PER PIECE.

PLEASE NOTE: Parties unknown to me and who have not had any previous credit established, or do not have a financial rating in Dun & Bradstreet, must send a deposit of at least 25% of the amount of their bids, **otherwise they cannot and will not be accepted.**

The Price List of this great Sale will be printed on the same quality paper as the body of the catalog, and of the same page size. The Price List will show the amount each and every coin sold for. Price for this list now is only $1. But this price holds good only until date of Sale, after which the price will be $2.

PLEASE NOTE: This Sale is so huge, it may take longer to dispatch the lots to the successful bidders. The Price Lists may be a little late in being distributed, so please be patient. The Price Lists will be dispatched as promptly as is humanly possible.

Of course, all bids must be in my office on or before the date of sale. In this instance, I will appreciate more than ever before if you will kindly send your bids in early. By so doing you will earn my gratitude and you may obtain a lot which you may miss by sending your bids late.

The size of Coins and Medals in this Catalog is given by Millimeters.

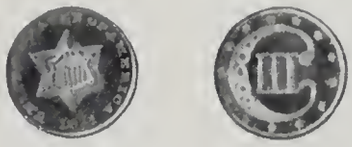
UNITED STATES SILVER COINS

SILVER THREE-CENT PIECES

Coinage commenced in 1851; discontinued in 1873. In 1851, coined at both the Philadelphia and the New Orleans Mints. All dates were coined at the Philadelphia mint only.

In order that you may have an opportunity to secure at least one coin from this Celebrated Collection, I have catalogued practically every coin individually.



Lot No.

1 1851 First year of issue. A five-pointed star on which is a U. S. shield, date below; UNITED STATES OF AMERICA: Reverse, III within large ornamental C, surrounded by thirteen six-pointed stars. Plain edge. Beautiful brilliant semi-proof; just about equal to a perfect brilliant proof. Quite rare in this remarkably choice condition.

2 1851 New Orleans Mint. Letter O just slightly to right of the opening of the C on reverse. Bright uncirculated. (Listed at $3.50).

3 1852 Uncirculated, with full frosty mint luster. Just as perfect as the day it was minted.

4 1853 Just a shade from uncirculated.

5 1854 Second type, three outlines to star and sprig above and three arrows below III. Practically uncirculated, with some mint luster.

6 1855 Extremely fine, nearly uncirculated, with considerable luster. Second rarest date. (Listed to $7.50.)

7 1856 Uncirculated; a tiny dark spot on lower point of star.

8 1857 Uncirculated; frosty mint surface.

9 1858 Perfect brilliant proof. Rare in proof. Catalogs at $6.50.

10 1859 Dull proof. Variety showing parts of another coin on which the obverse was struck.

11 1860 Uncirculated, with mint luster.

12 1861 Light purple proof.

13 1862 Perfect sharp brilliant proof. (As one of my clients recently described a brilliant proof coin, this is a "blistering" proof.)

14 1863 Light purple proof with partly wire edge.

Lot No.

15 1864 The rarest date of the series. Proof. Listed at $17.50 and price steadily advancing, as only 470 were minted and probably not half that number now existing.

16 1865 Originally struck as a proof; the obverse shows evidence of having been struck over another coin. I classify this piece as extremely fine with proof surface.

17 1866 Perfect brilliant proof, and certainly "blistering."

18 1867 Perfect brilliant proof, sharp.

19 1868 Brilliant proof.

20 1869 Dull proof.

21 1870 Brilliant proof.

22 1871 Perfect brilliant proof with raised borders.

23 1872 Brilliant proof.

24 1873 Last year of issue. Brilliant proof with raised borders. Rare. (Listed at $7.50.) All of the proof Three-Cent pieces catalog and readily sell from $3.00 on up to $17.50 for the 1864.

HALF DIMES or SILVER FIVE-CENT PIECES

Coinage commenced in 1792, with the Martha Washington Half Disme, and the regular coinage in 1794; discontinued in 1873. None coined in 1798 and '99; 1806 to 1828 inclusive. Coined at the Philadelphia, New Orleans and San Francisco Mints.

25 1792 Half Disme. Portrait to left, supposed to be that of Martha Washington, date below. LIB. (erty) PAR. (ent) OF SCIENCE & INDUSTRY. Reverse, small flying eagle, HALF DISME in two lines below; legend, UNITED STATES OF AMERICA. Milled edge and borders. The coin is practically uncirculated, with considerable original mint luster; only highest portions show slight cabinet friction. There seems to be a tiny piece of silver inserted between Y and L. This was apparently done before striking, as the letters over it seem to be perfect. Rare, especially so choice. A similar specimen in my Hale Sale brought $63.00.

> The Half Disme is the first official coin of the United States Mint. The evidence for this comes from no less an authority than George Washington himself. In his fourth annual address, November 6, 1792, President Washington stated:
>
> "In execution of the authority given by the Legislature, measures have been taken for engaging some artists from abroad to aid in the establishment of our Mint. Others have been employed at home. Provisions have been made for the requisite buildings, and these are now putting into proper condition for the purposes of the establishment. There has been a small beginning and a coinage of Half Dismes, the want of small coins in circulation, calling the first attention to them."

26 1794 Regular issue. Undraped bust of Liberty, date below, LIBERTY above. Seven stars to right, and eight to left. Reverse, eagle with open wings within wreath, UNITED STATES OF AMERICA. Milled edge and borders. This is obverse with fairly wide date near border, the same as Valentine No. 1, but the reverse is entirely different, as there are two leaves under OF instead of one. Very fine, especially for this coin. Rare.

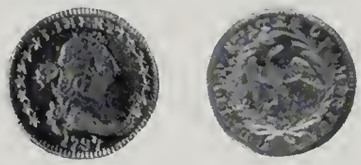
Lot No.

27 1795 Same type as the 1794. Wide date. Variety with die break across obverse. Beautiful sharp uncirculated specimen, with frosty mint surface. Rare so choice.

28 1795 Perfect die. Very fine.

29 1796 New type. Draped bust to right. Strictly very good can be classed as strictly fine for this coin. Quite scarce.

30 1797 The rarest variety of this rare date, thirteen stars, six to right and seven to left of bust. Extremely fine, with considerable original mint luster. A very slight imperfection of the planchet on edge, not the least affecting the appearance or value of the coin. Very rare and valuable. Not even in the Hale Collection.



31 1797 Fifteen stars. The least rare variety of this rare date. Strictly very good. Seldom found better and usually classified fine for this coin.

32 1797 Sixteen stars. Strictly fine; was originally purchased as very fine for this piece. Rare and valuable.

33 1800 Perfect LIBERTY. Usual die break on obverse edge below date. Extremely fine with some luster. One of the most difficult dates to find choice.

34 1801 Extremely fine with traces of original luster. One of the finest specimens of this rare date Half-Dime I have ever handled. Most difficult to find better than good. Rare and valuable. High auction record.

Lot No. 35

(Illustration Enlarged)

THE EXCEEDINGLY RARE 1802 HALF-DIME
One of the Rarest U. S. Coins!

1802 Half-Dime or Five-Cents Silver. Draped bust of Liberty to right, LIBERTY above, date below. Six stars to right and seven to left. Reverse, heraldic eagle, band of clouds extending from wing to wing. Thirteen stars. Legend, UNITED STATES OF AMERICA. Milled borders and edge. Some of the stars on reverse not struck up as bold as the others. The reverse is the same die as that of the 1801. The obverse, 1 of the date does not touch curl; the 2 of date touches bust. The 8 is larger than on any of the previous Half-Dimes of 1800 and 1801. Extremely fine. Of greatest rarity. This coin is by far the rarest of the series and has always been regarded as one of the rarest of all United States silver coins.

As stated in my Catalog of the Hale Collection, I am confident that there are a far smaller number of the 1802 Half-Dimes known **in choice condition** than there are of the 1804 Dollars. The fine and better specimens which have been offered during the past half century are invariably the same coins re-sold. No newly discovered fine specimens have come to light. I believe that the total number of this rare Half-Dime known, in all conditions, does not exceed twenty or twenty-five specimens at the most.

In the Wilson Sale, in 1908, where an 1802 Half-Dime brought $715.00, it was stated that but sixteen specimens were known in all. The specimen here offered is about equal to the one sold in the Wilson Collection. This coin was purchased by Mr. Dunham in 1906.

Back in 1884, fifty-six years ago, in a "History of the U. S. Coins" by Charles Steigerwalt, whom the older collectors will well remember as the leading Numismatic Dealer of his time, and regarded as an authority and an expert, he even then classed the 1802 Half-Dime as "one of the rarest U. S. coins."

While it is true that a "coin is a coin," but there is always an added pleasure and thrill and, yes, an added value in owning a rarity such as this, in such choice condition and which reposed in such a prominent collection for more than thirty years.

Lot No.

36 1803 Strictly fine, especially for this rare date. Listed at $12.50 and seldom obtainable at this price in this condition.

37 **1805** Strictly fine, especially for this rare date. Next in rarity to the 1802. The reverse, the upper right stars are not struck up and there is a very faint light scratch through the stars, not affecting the appearance nor the value of the coin to any extent. One of the best specimens of this rarity I have seen in many a day. In ordinary very good condition, it lists at $25.00.

38 1829 New type with bust to left; eagle with shield on breast, motto above. Brilliant semi-proof, nearly equal to a brilliant proof. Very scarce so choice.

39 1830 Uncirculated with frosty mint surface. All stars well filled.

40 1831 Practically uncirculated, with mint luster.

41 1832 Brilliant uncirculated, sharp, a little gem.

42 1833 Uncirculated; highest portion of obverse shows slight cabinet friction.

43 1834 **Brilliant proof.** Extremely rare in this remarkable condition.

44 1835 Large date and 5 C. Uncirculated, slightly dulled on right reverse.

45 1835 Large date and small 5 C. Uncirculated; slightest cabinet friction on obverse.

46 1835 Small date and large 5 C. About uncirculated, with frosty mint luster.

47 1835 Small date and small 5 C. Uncirculated. Very slightest cabinet friction on obverse.

48 1836 Large 5 C. Uncirculated.

49 1836 Small 5 C. Fine. Scarce.

50 1837 Bust type. Large 5 C. Fine.

123 1796 Variety with die break at first star on left, and light die break on reverse. A beautiful uncirculated specimen; sharp and perfect in every respect, with full mint luster. The milling on obverse is partly double-struck. Very rare so choice.

Lot No.

128 1798 Perfect date. Extremely fine; nearly uncirculated with considerable mint luster. This coin seems to have had a piece inserted at top. Upon a very close examination I believe that the plug was inserted before the coin was struck as is certainly evident by the perfection of the E and the feathers in eagle's tail. A great rarity in this choice condition.

129 1800 Strictly fine to very fine and certainly can be classed as very fine for this coin. Seldom equalled. Very rare. Listed at $20.00 in this condition.

130 1801 Strictly very good; fine for coin. A tiny spot on lower right reverse edge. Seldom found better.

131 1802 Very good; strictly so, with fine date. Originally purchased as fine.

Lot 134

1804 One of the finest specimens of this, the rarest date Dime that I have ever handled. Extremely fine, just a shade from uncirculated, with nice mint luster, perfectly centered and well struck. A minute pin-point die break below chin. Worthy of its highest record. A coin that should bring near or into the three-figure mark. This coin was purchased by Mr. Dunham nearly forty years ago. Even at that time the coin cost over $50.00.

135 1805 Practically uncirculated; sharp, with considerable luster. Very scarce so choice.

136 1807 Uncirculated, with frosty mint surface. Stars on left and corresponding side of reverse not as bold as the balance of the coin, but rare so choice. Listed at $15.00.

137 1809 Strictly very fine.

138 1811 over '09, as all are. Very fine. Scarce.

143 1821 Small date. Perfect uncirculated specimen with full frosty mint surface. The rarest variety. Listed at $5.00.

Lot No. 144

1822 Beautiful uncirculated specimen with broad borders and full mint luster. One of the most difficult Dimes to find choice. Record near $100.00. In this condition I consider it as rare, if not more so, than the 1804.

146 1823 Large E's in legend. Very good to fine.

148 1825 Brilliant semi-proof; just about equal to a brilliant proof.

149 1827 Brilliant semi-proof; equal to a perfect proof. Scarce so choice.

150 1828 Small date. Brilliant uncirculated, with proof surface. Light planchet depressions on left reverse. Rare. Listed at $12.50.

151 1829 Large 10 C. Very fine.

152 1829 Small 10 C. Just about uncirculated, with mint luster; highest portions show cabinet friction. Listed at $3.00.

Lot No.

163 1837 Small date. Shade from uncirculated; with considerable luster. Rare. Listed at $5.00.

167 1840 Second issue or second type, with drapery at elbow. Extremely fine.

168 1841 Type as last, with drapery. Perfect uncirculated specimen with full mint luster. Very scarce so choice.

169 1842 Uncirculated; full mint luster.

170 1843 The obverse is a brilliant proof; the reverse, not quite so brilliant. But I do not believe that this coin was struck as a proof, as the edge is rounded instead of sharp. But it is certainly a gem coin.

Lot No. 171

PHILADELPHIA MINT QUARTER DOLLARS

Lot No.

410 1796 First year of issue. Browning No. 2, 6 of date low. Reverse, eagle's head well struck up (usually it is weakly struck). Mr. Browning had this to say about this variety, "perfect impressions on the reverse are found only on this variety, which is very rare." Extremely fine; in fact the coin is practically a proof but shows considerable cabinet friction. The borders are all even and broad and it has considerable original proof surface. A most acceptable specimen of our first Quarter Dollar, and its rarest variety.

411 1804 Very fine, especially so for this coin. One of the most difficult early Quarters to find choice. Listed at $20.00 in only fine condition.

412 1805 So-called small stars on reverse and peculiar die break connecting clouds, star and scroll. Very fine. Very scarce.

413 1805 Variety with large stars on reverse. Strictly very good. Rare variety.

414 1806 over '05. Extremely fine with considerable mint luster. Rare, especially so choice. The over-date very plain. This coin in uncirculated condition has a record of over $100.00.

415 1806 Perfect date and perfect die. Variety with point of 1 touching curl, and reverse figure 5 to left and distant from arrows. Very fine.

416 1806 Die break on obverse through curls and through 1 which touches curl; reverse, top of 5 touches almost end of arrows. Very fine. Very scarce.

417 1807 Just a shade from uncirculated, with nice even frosty mint surface. A most attractive specimen of this very difficult date to find choice. Quite rare.

418 1815 Fine to very fine.

419 1818 Perfect date. It is a considerable temptation for me not to catalog this coin as a proof. The obverse is brilliant; even the edges are sharp. The reverse is not quite so brilliant. It shows the slightest cabinet friction on reverse. This may and may not be a proof, but it is as beautiful an 1818 Quarter Dollar as I have seen.

420 1819 Small 9 in date. Extremely fine with considerable original mint luster.

421 1820 Small 0 in date. Uncirculated, with mint luster. The highest portions show just the slightest cabinet friction. Seldom equalled.

422 1820 Large 0 in date. Extremely fine, with some luster.

423 1821 Uncirculated, with full mint luster. Rare so choice.

Lot No.

424 1822 Just a shade from uncirculated with purplish mint luster. Rare date in very rare condition.

Lot No. 425

1823 over '22, as all are. Good to very good. Excessively rare. One of our rarest silver coins. Until just a few years ago, there were no 1823 Quarters known in better condition until two or three were discovered in Europe, which have since sold up to $1,000.00 each. Of course, this coin is not worth any such price, but it is worth well into the three-figure mark.

426 1824 Nearly uncirculated, with considerable mint luster. Rare so choice. Listed at $25.00 in uncirculated condition. Far more rare than most collectors realize.

427 1825 over '24. Brilliant uncirculated with proof surface; nearly equal to a brilliant proof.

428 1828 Perfect date and perfect die. Beautiful sharp uncirculated specimen; every star filled; as perfect as the day it was minted. Some day, collectors will wake up as to just how rare these early Quarters are in choice condition.

429 1828 The rare variety with 25 over 50 on reverse. Strictly very good. Very rare. Listed in fine condition at $15.00.

430 1831 Small letters. Practically uncirculated. Very scarce so choice.

431 1832 Uncirculated, with full mint luster. Far more scarce than its listed price of $2.50 would signify.

432 1833 Brilliant semi-proof; nearly equal to a brilliant proof. A gem, and as such, quite rare.

433 1834 Uncirculated, with full frosty mint surface. Another very scarce date to find so choice.

434 1835 Die breaks on obverse. Uncirculated; dark mint surface.

435 1835 Variety without period after C on reverse. Practically uncirculated with mint luster.

436 1835 With period; perfect die. Uncirculated; slight cabinet friction.

437 1836 Uncirculated, with considerable mint luster. Very scarce.

438 1837 Just a shade from uncirculated but with considerable mint luster. Very scarce date in rare condition.

439 1838 Last year of the bust type. Uncirculated; frosty mint surface.

440 1838 Liberty seated. First year of this type. Strictly fine.

441 1839 Practically uncirculated; considerable luster.

442 1840 Same type as last but with drapery at elbow. Uncirculated; frosty mint surface. Rare so choice. Listed at $10.00.

443 1841 Practically uncirculated. Very rare.

Lot No.

444 1842 So-called large date. About uncirculated with considerable luster. Catalogs at $6.00.

445 1843 Uncirculated; high portions show slight cabinet friction but has considerable luster. Very scarce. These all list at $5.00 to about $10.00 each.

446 1844 About uncirculated; high portions show slight cabinet friction but has considerable mint luster.

447 1845 Nearly uncirculated; purple surface. Very scarce so choice.

448 1846 Sharp uncirculated with full frosty mint surface. Rare. Listed at $7.00.

449 1847 Uncirculated, with full frosty mint surface. Very scarce so choice.

450 1848 Just a shade from uncirculated; considerable mint luster. (All of these coins which I catalog as "about uncirculated" were all originally purchased as uncirculated coins, and I believe they are.)

451 1849 Uncirculated; highest portions show slight cabinet friction; frosty mint surface, slightly purple.

452 1850 Nearly uncirculated, with frosty mint surface. Very scarce.

453 1851 Practically uncirculated; mint luster.

454 1852 Uncirculated; frosty mint surface. Highest portions of eagle's wing show slight cabinet friction. Rare date in rare condition. Listed at $6.00.

455 **1853 Without arrowheads at sides of date and no rays around eagle on reverse.** Same die as that of 1852. Beautiful sharp brilliant mint **uncirculated.** Extremely rare in this remarkably choice condition. A rarity which has not been appreciated, especially when so choice. Catalogs at $35.00 and easily worth $50.00.

456 1853 Second issue, with arrowheads at sides of date and rays back of eagle. Only year of this type. About uncirculated.

457 1854 Arrowheads at sides of date, but no rays on reverse. This type was minted only in 1854, 1855, 1873 and 1874. Uncirculated; frosty mint surface.

458 1855 About uncirculated.

459 1856 About uncirculated with purplish mint luster.

460 1857 Extremely fine, with frosty mint surface.

461 1858 Brilliant proof. Very scarce. Listed at $8.00 and constantly advancing in value and in demand.

462 1859 Perfect brilliant proof. Scarce. This and the next eight lots catalog at not less than $3.00 each, so please do not hope to get them at prices of ten years ago.

Duplicate Set of Liberty Seated Quarter-Dollars

496 Proof Quarter-Dollars, 1859 to 1891 inclusive, including both varieties of 1873; with and without arrowheads. Each and every coin in brilliant proof condition. A set, if purchased separately would cost about $80.00 or an average of about $2.50 each. The rarity of these proof coins are not yet fully appreciated. I doubt if, on an average, more than 500 specimens of each date were struck in proof, and certainly a far smaller number exist today. Therefore, on this lot, please start your bid at not less than $2.00 each. Thirty-four pieces.

COMPLETE SET OF MORGAN TYPE QUARTER-DOLLARS AND ALL IN MINT CONDITION

Philadelphia Mint Morgan Type Quarter-Dollars

A great deal has been published about the rarity and difficulty of forming a complete set of uncirculated Liberty standing Quarter-Dollars. But for some reason collectors have overlooked the scarcity and the greater difficulty of forming a complete set of Morgan type Quarter-Dollars of all mints. Of course I refer to coins in mint condition. I doubt very much if there are a dozen complete sets in existence. I know of several of the branch mint coins of this series which until just a few years ago sold for a very nominal sum which are now bringing from ten to twenty times as much. This is simply an expression of my observation and experience.

Lot No. 549

1901 San Francisco Mint Quarter-Dollar. Uncirculated, with full mint luster. Here is a coin the rarity of which has not, and I doubt if it is now, being appreciated by but very few collectors. I consider it one of the very rarest of all branch mint coins and the rarest of all branch mint Quarter-Dollars, especially so in mint condition as is this one. It is true that this coin is listed in the so-called standard catalog at $35.00 (although just three years ago it was listed in the same catalog for only $3.00), but as a numismatic dealer, who buys to sell at a profit, I will gladly pay $60.00 for an equal specimen. I know of one collector, one of the most prominent in the United States, a gentleman who has been collecting for about forty years, and who possesses one of the finest and most complete collections of American coins ever brought together, who did not have this coin until just about a year ago, at which time he paid nearly $100.00 for it. This coin should bring well into the three-figure mark. It is certainly as rare, if not more so, than the 1878 S Mint Half-Dollar which I know has sold up to $150.00. During my forty years of numismatic experience I have handled far more 1878 S Mint Half-Dollars than uncirculated 1901 S Mint Quarter-Dollars.

Lot No. 629

1891 (No Quarter-Dollars minted at the New Orleans Mint from 1861 to 1890 inclusive.) A magnificent brilliant semi-proof; equal to a perfect brilliant proof. The only reason I classify it as "semi-proof" is that I do not believe that proofs were struck at the branch mints. This is undoubtedly an early impression of the die as it is practically a perfect brilliant proof. Another coin the rarity of which in mint condition has not been appreciated. Record of $50.00. This coin is listed in the standard catalog just three years ago, at $7.50, and in the 1941 catalog it is listed at $35.00, but I will myself gladly pay much more for an equal specimen.

THE ONLY U. S. COMMEMORATIVE QUARTER-DOLLAR

Lot No.

663 1893 Isabella. Only U. S. coin wtih portrait of a foreign Monarch. While it is my understanding that no proofs were struck of this coin, but I certainly classify this coin as a brilliant proof; in fact it has considerable wire edge. At any rate, it is the most beautiful specimen of this coin I have ever seen. Probably Mr. Dunham secured this coin in the year of issue.

868 1916 Brilliant uncirculated. Far more scarce in this choice condition than is generally recognized. I believe it is as rare as the 1916 Quarter-Dollar.

869 1917 Uncirculated; frosty mint surface. Just as scarce as last.

870 1918 Bright uncirculated. Rare, very much so. Just four years ago this coin was listed at $2.50, but in the 1941 catalog it is listed at $12.50. It is seldom obtainable in mint condition. It would not surprise me to see the values of all these Half-Dollars more than double in the very near future.

871 1919 Brilliant uncirculated. Just as perfect as the day it was minted. Another coin which advanced nearly four times in value in the past three years.

872 1920 Bright uncirculated. Very scarce.

CONFEDERATE RE-STRIKE HALF-DOLLAR

924 1861 Half-Dollar with obverse of regular U. S. issue of 1861, and Confederate die on reverse (see illustration above). Upon the seizure of the U. S. Mint by the Confederates, their intention was to strike Half-Dollars. A die was prepared, but as they found very little specie, only four specimens were struck, of which only three are known to exist today. The last time that one changed hands it sold for $3,000.00. The re-strikes were struck by J. W. Scott, about 1870. Only 300 were struck, after which the

die broke. However, before the die broke, a small quantity of specimens were struck in aluminum, with the Confederate die only. (See following lot.) This re-strike Half-Dollar is in extremely fine condition with some mint luster. It is the only metallic coin of a nation of some nine million people which existed within the United States. This coin retails at about $30.00 and has sold for more.

925 Confederate re-strike Half-Dollar in aluminum. The obverse, the Confederate die. Reverse, "4 Originals Struck By Order of C. S. A. in New Orleans, 1861. Rev., same as U. S. From Original Dies: Scott." Perfect; proof surface. Very scarce and in much demand.

SAN FRANCISCO MINT EARLY HALF-DOLLARS

926 1856 Practically uncirculated, with mint luster. A light long spot on reverse which can undoubtedly be removed. One of the finest specimens of this rare coin I have ever seen. Listed at $20.00 in only very fine condition. This should be worth at least double.

933 1866 Second type, with motto. Fine to very fine. Rare. Although according to the standard catalog this variety is less rare than the one without motto, but I consider it about twice as rare as the other, based on my experience of the number of specimens that have passed through my hands in the past forty years.

934 1867 Strictly fine.

U. S. COMMEMORATIVE HALF-DOLLARS

These coins are all legal tender, issued to commemorate some important event in the history of the United States. Most of them are of beautiful design and workmanship. It is true that in some of the later issues there has been considerable speculation so that the great popularity which these coins enjoyed for some time was somewhat diminished. But in the recent year or so, interest and demand for them has been increasing considerably. It is my opinion that the future of these beautiful coins is indeed bright.

The Condition of the Following Coins Is Absolutely Uncirculated, Mint State

952 1892 The first commemorative Half-Dollar issued to commemorate the 400th anniversary of the discovery of America. Portrait of Columbus. Reverse, his flagship and the two hemispheres. The mint reports 950,000 specimens were struck. This specimen is a brilliant semi-proof; nearly equal to a brilliant proof. While this is probably the least rare of all commemorative Half-Dollars, yet it has the astonishing record of $10,000.00 having been paid for a single specimen. It was for the first specimen struck. The purchaser was the Remington Typewriter Co.

953 1893 Columbian, as last. Of this issue the mint reports that 4,052,105 specimens were struck, of which 1,550,405 were either sold or placed in circulation and the balance re-melted. Semi-proof. Very scarce so choice.

954 1915 Panama-Pacific. Struck to commemorate the construction and opening of the Panama Canal. Figure of Columbia. Reverse, eagle on U. S. shield. Uncirculated. Rare. Total number coined, 60,030. Originally sold at $1.00 each and now listed at $17.50 each. Only 27,164 sold, balance returned to the mint and re-melted.

957 1920 Pilgrim. Struck to commemorate the 300th anniversary of the landing of the Pilgrims at Plymouth. Portrait of Governor Bradford in Pilgrim attire; reverse, view of the Mayflower. A beautifully executed coin. 200,212 coins struck and apparently all were sold.

958 1921 Pilgrim. Same design as last, but the date, 1921, on obverse to left of bust. 100,053 struck, of which only 20,053 were sold, balance re-melted. Rare, especially in mint state.

959 1921 Alabama. Commemorating the 100th anniversary of the admission of the State into the Union. Portraits of Governor Bibb, the first Governor of Alabama, and Thomas E. Kilby, Governor of 1920. Reverse, eagle on shield. To right of bust, 2*2, indicating that Alabama was the twenty-second state to enter the Union. Only 6,006 minted. Rare. Record over $20.00.

960 1921 Alabama. As last, but without 2*2. Of this second issue, there were 54,038 coins struck, of which 49,038 were sold. Balance re-melted. Now very scarce.

961 1921 Missouri. Commemorating the 100th anniversary of its admission into the Union. Portrait of frontiersman. Reverse full length figures of pioneer and Indian. 45,000 specimens struck, of which only 15,400 were sold. Balance returned to the mint and re-melted. Rare and in demand.

962 1921 Missouri. As last, but with 2*4 to left of bust, indicating that Missouri was the twenty-fourth state admitted into the Union. Bright mint luster. Rare and in demand. Record over $35.00. Only 5,000 struck.

963 1922 Grant. Struck to commemorate the 100th anniversary of the birth of General Grant. Portrait of Grant to right. Reverse, view of his log cabin birthplace. 95,000 struck, of which 67,215 were sold; balance re-melted.

964 1921 Grant. Same type as last, but with a five-pointed star incused (stamped in), above the name GRANT. Only 5,000 struck of this second issue, of which all but 750 were sold. Very rare, especially in mint condition. Record up to $60.00.

965 1923 Monroe. Probably the most historical in importance, of all commemoratives. Commemorates the 100th anniversary of the Monroe Doctrine. Portraits of Monroe and Adams. Reverse, two figures in form or position of a map of the two continents. 274,077 minted. Somehow a goodly number got in circulation, as real uncirculated specimens are very scarce.

966 1924 Huguenot-Walloon. Commemorating the 300th anniversary of the settlement of New Netherlands by the Huguenots and Walloons. Portraits of Admiral Coligny and William the Silent. Reverse, the ship New Netherland. 142,080 coins minted, of which 87,480 were sold. An interesting design; historical, and now scarce.

Only 1,165 returned to the mint. A very attractive coin, but next to the Columbian in lack of rarity.

969 1925 Fort Vancouver. Issued to commemorate the 100th anniversary of the founding of Vancouver in Washington. Portrait of Dr. John McLoughlin, the builder of the fort. Reverse, a frontiersman with the fort and mountains in background. A beautiful coin. 50,028 minted, but only 14,966 sold and balance re-melted. Now very scarce and retails up to $10.00.

970 1925 California Diamond Jubilee. Struck to commemorate the 75th anniversary of California being admitted into the Union. Obverse, a miner washing gold. Reverse, a bear. 150,200 coins minted at the San Francisco Mint; 86,594 were sold and the balance re-melted. A beautiful coin. Getting very scarce.

Reverse, Liberty Bell, with the dates, 1776 and 1926 on either side. An unusually well struck and choice specimen for this coin. Total number issued, 1,000,528, but of which only 141,120 were sold, and balance re-melted.

972 1926 Oregon Trail. One of the most beautiful coins of the entire issue. Indian Chief standing with map of U. S. as background. Reverse, a prairie schooner moving towards the setting sun. This coin was struck both at the Philadelphia and San Francisco Mints. 98,030 struck at the Philadelphia Mint.

Very scarce in perfect mint condition as is this one.

976 1928 Oregon Trail. Same type as the 1926. Total number minted, 50,028, but 42,000 were re-melted, so this coin is rather scarce.

988 1935 Arkansas, Denver Mint. 5,500 struck.
989 1935 Arkansas, San Francisco Mint. Only 5,500 struck. This is one series of the commemoratives that have held up nicely. Modesty prevents my stating the fact that the steady value of this series is very likely due to the fact that I was responsible for the branch mints of this date to have been issued and that I had charge of their sale.
990 1935 Spanish Trail, commemorating the 400th anniversary of the opening of the Old Spanish Trail. Head of a steer. Reverse, map showing the Trail. 10,000 struck, and all distributed. Now very scarce.

1035 1795 Head type. Reverse, three leaves under wings. Magnificent uncirculated specimen; sharp and perfect in every respect. A gem, and as such, very rare and valuable. Just about as perfect as the day it dropped from the press.

1036 1795 Second type, bust. Reverse, eagle on clouds. Just a shade from uncirculated; highest portions show slight cabinet friction, but with brilliant mint luster. Said to have cost $50.00.

1037 1795 Bust type. Variety with bust closer to left; star on right does not touch bust, and star on left has two points touching curl. Extremely fine, with considerable luster; perfectly centered. Very scarce.

1038 1796 Small date. Reverse, large letters. About fine. Scarce.

1039 1796 The extremely rare variety with small date and small letters. Very fine, with considerable mint luster. Catalogs at $35.00, but difficult to obtain at this price, especially so choice.

1040 1796 Large date and small letters. Variety with die break in IC. Fine to very fine.

1041 1797 Variety with six stars to right, and ten to left. Very fine, with frosty mint surface. Listed at $15.00 and certainly worth it.

1042 1797 Variety with seven stars to right and nine to left. Very fine, with some luster. Very scarce.

1043 1798 Variety as last; small eagle on reverse; thirteen stars on obverse. Variety with die break through second T in STATES. Strictly very good. Very scarce.

1044 1798 Heraldic eagle. Small stars on obverse. Date and stars distant and evenly spaced. Reverse, struck off center to left. The edge reads UNI instead of UNIT. Nearly uncirculated with mint luster. A common date but scarce variety and rare condition.

Lot No.

1045 1798 Heraldic eagle. Date high; star on right close to bust. Obverse struck slightly off center to right with raised borders on left.

1046 1799 over '98. Very fine, with frosty mint surface.

1047 1799 Perfect date. Very fine; sharp, with considerable luster. Only slight touch of circulation.

1048 1799 The rare variety with five stars to right of bust. Very fine. Rare. Listed at $15.00.

1799 Silver Dollar With Counterstamp of Ephraim Brasher

1048-A 1799 Perfect date, six stars to right. Counterstamped with E B in rectangular punchmark in top center of head. The letters, EB are of the identical type as found on the Brasher Doubloon. We know that it was the custom of Brasher to stamp all gold coins that passed through his hands. I do not at this moment recall ever having seen a silver coin with his counterstamp. This is the first I have ever seen. After a very careful examination I unhesitatingly say that the counterstamp is contemporaneous. At any rate, it is a most interesting item. The coin is in strictly very good condition.

1049 1800 Perfect die. Just a shade from uncirculated with considerable mint luster. Rare so choice. Cost $20.00 over twenty years ago.

1050 1800 Variety with die break on reverse, making the legend read AMERICAI. Strictly fine.

1051 1800 Perfect die. Variety with stars close to bust and curl. Reverse, legend close to clouds. Just a shade from uncirculated, with frosty mint surface. Quite rare so choice; in fact far more so than is generally recognized.

1052 1801 **Uncirculated;** frosty mint surface. Perfectly centered and struck, with every star filled. A rarity in this remarkable condition. Certainly far more rare than an uncirculated Cent of this year which is worth at least $50.00.

1053 1802 Perfect date. Very fine with some luster.

1054 1802 over 1801. Very plain over-date. Extremely fine, with considerable luster. Cost over $10.00 many years ago.

Lot No. 1055

BRILLIANT PROOF 1802 SILVER DOLLAR

1802 Perfect date. Struck from the dies of the 1804 Dollar, but at a later date. It is the same dies as the "King of American Coins." The 2 in date is entirely different than that of any other 2 of this date Dollar. Raised borders. **Perfect brilliant proof.** Just as rare as the second issue or so-called re-strikes of the 1804 Dollar. Only about twelve specimens struck. The last record for an 1804 Dollar of this variety was $840.00 about nineteen years ago. Since then a specimen sold at private sale for $1500.00. While this date, 1802, is not as desirable as the 1804, but as mentioned before, it is just as rare and should bring well into the three-figure mark. A gem, and of highest interest.

Lot No.

1056 1803 Small 3 in date. Highest portions show slight cabinet friction, otherwise uncirculated with semi-proof surface. A beautiful specimen of this rare variety. Listed at $15.00 in very fine condition. This one should be worth a great deal more.

1057 1803 Large 3 in date. Very fine, with some luster. Very scarce so choice.

UNITED STATES OF AMERICA

The KING *of* AMERICAN COINS

The UNITED STATES SILVER DOLLAR *of* 1804

In all the History of Numismatics of the entire world, there is not today and there never has been a single coin which was and is the subject of so much romance, interest, comment, and upon which so much has been written and so much talked about and discussed as the United States Silver Dollar of 1804.

While there may be coins of greater rarity, (based upon the number of specimens known),—but none are so famous as the Dollar of 1804! This is due to the fact that this great coin was the first coin of United States mintage to have been recognized as the rarest coin of the United States, from the very beginning of American Numismatics, more than One Hundred years ago. And it is today, as it always has been, the best known and most sought-after coin, not only among collectors, but among the public in general as well.

Here Is the "Biography" of This—

THE FAMOUS "DEXTER 1804 DOLLAR"—

ONE OF ONLY SIX ORIGINALS KNOWN OR EVER DISCOVERED

Lot No. 1058

This great coin was first discovered, as were many other choice and great American rarities, in Europe, in 1884, by one of the Chapman brothers, who acquired it from the famous Berlin Numismatist, Adolph Weil. The Chapmans offered it in their Sale of May 14th and 15th, 1885.

Description of the 1804 Dollar
As It Appeared in the Chapman Catalog of 1885

"No 354 1804. Draped bust of Liberty facing right, the head bound with a fillet; hair flowing; 6 stars before and 7 behind the bust, above LIBERTY, upper right hand star almost touching the letter Y. Reverse, Heraldic eagle bearing on his breast a broad shield, in his beak a scroll inscribed E PLURIBUS UNUM; 12 arrows in right talon, a branch of olive in left; above an arc of clouds from wing to wing of eagle, in field beneath 13 stars; UNITED STATES OF AMERICA. Edge lettered HUNDERD CENTS ONE DOLLAR OR UNIT, which is lightly struck in some parts, as are all the other specimens. Weight correct, 415.8 grs., the legal standard being 416 from 1794 to 1837. In superb, extremely fine condition, with beautiful proof surface, as fine as, if not the finest of the seven known. We guarantee it genuine.

"The specimens known are in the collections of:

1. Cabinet of U. S. Mint, Philadelphia, weight 415.2 grs.
2. M. A. Stickney, procured by him from Mint Cabinet, in 1843, in exchange for other coins.
3. W. S. Appleton, bought at an advance on $750.00, in 1868, from E. Cogan, who purchased it from W. A. Lilliendahl, who bought it at a sale of collection of J. J. Mickley, 1867, for $750.00.
4. L. G. Parmelee, bought at sale of E. H. Sanford's collection, 1874, for $700.00, who obtained it in 1868 from an aged lady, who got it at the Mint years before.
5. W. B. Wetmore, bought of Mr. Parmelee in 1868 for $600.00, from sale of H. S. Adams' Collection, 1876, at $500.00, from sale of M. J. Cohen's collection, 1875 at $325.00 (in fair condition).
6. Present owner unknown to us; formerly in collection of R. C. Davis, and recently sold for $1,200.00.
7. S. H and H. Chapman, purchased October 13, 1884, at the sale of a fine collection in Berlin.

(NOTE: While Mr. Chapman mentions seven original 1804 Dollars, he later discovered his error as will be noted in his letter to Mr. Dexter, as reproduced on page 67 of this catalog.)

"We have compared it with that in the Mint, turning them round together, and they are absolutely the same, with ours a trifle finer.

"We have recently examined Nos. 1 Mint, 3 Appleton, 4 Parmelee, 5 Wetmore, and all are alike. No. 6 we saw some years ago, but do not now remember it well enough to describe it. Mr. Davis states 'that it corresponds precisely with No. 1'.

"Mr. Stickney wrote that he was in too poor health to show us his specimen, but kindly informed us that it was the same as that in the Mint. He gave, on June 9, 1843, an Immune Columbia in gold and other pieces for it then the duplicate in the Mint cabinet. This also proves that the specimen now therein was in the collection in 1843, fifteen years previous to the restrike, and the large prices for U. S. rarities which tempted their issue. It is also described in Eckfeldt and DuBois Manual, 1842.

"It is the first one that has been offered at auction for eight and a half years, and ten and a half years since one at all approaching it for state of preservation, and should bring a large advance on the previous prices. There is no other coin in the United States series which has such a widespread and acknowledged great value and rarity, or which adds so much numismatic glory to a collection, as the King of American rarities—the 1804 Dollar."

The coin was purchased at the Chapman sale by J. W. Scott (the founder of the Scott Stamp & Coin Co., and considered the father of philately and numismatics in America). The price paid was $1,000.00. It was purchased on order from J. V. Dexter of Denver, Colorado, in whose collection it remained until his death, after which it was sold by R. G. Parvin, executor of the estate, to H. G. Brown of Portland, Oregon, for $2,000.00, in 1902.

This coin was next offered in the sale of the H. G. Brown collection, in October, 1904. The collection was cataloged and sold by Lyman H. Low, who was then the Dean of American Numismatic Merchants. This coin was purchased by Mr. Dunham, who attended the sale in person, making a special trip from Chicago to New York for the sole purpose of obtaining this famous coin. It has remained in the Dunham Collection until now, thirty-seven years.

DESCRIPTION OF THE 1804 DOLLAR

As It Appeared in the Low Catalog of the H. G. Brown Sale

"Lot No. 431. Bust of Liberty to right; six stars on right and seven on left; above, LIBERTY. Border of beads in place of the pointed or elongated milling, which is found on all other years of this type.

REVERSE, Heraldic eagle with shield on breast; head left; above, in a semicircle of clouds, thirteen stars, one of which touches the lower part of eagle's beak, while the upper, or longer mandible, is entirely free from it; in his right talon, twelve perfectly formed arrows, in his left, an olive branch. The beading on the border is differentiated from the milling on the early Dollars of this type in the same manner as that of the obverse, though the beads are less globular. Legend, UNITED STATES OF AMERICA.

Edge; HUNDRED □ o □ o □ ★ ★ CENTS ★ ★ □ o □ ★ ★ ONE ★ ★ DOLLAR ★ ★ OR ★ ★ UNIT □ o □ ★ ★ ★ Distinct only in parts, a feature common to all specimens of this particular issue."

The condition of the coin was described by Mr. Low as follows: "Extremely fine, with brilliant, proof-like surface, and unimpaired since its last public appearance at an auction sale in Philadelphia, in May, 1885, where it was purchased on an order of J. V. Dexter."

In my opinion, which is concurred in by all who have had the privilege of seeing this rarity, the coin is really and truly a brilliant semi-proof, with an even, beautiful, iridescent medium purple surface. The Chapmans stated that it was superior to the Stickney specimen which later brought $3,600.00 in the sale of the Stickney collection, in 1907.

The following comment also appeared in Lyman H. Low's catalog of the Brown collection where this coin was sold:

> "The type of the obverse of this Dollar was introduced in 1795, the reverse in 1798, a combination which was continued from 1798 to 1804, when the design was discontinued and the coinage of this value ceased until 1836. A prominent distinction of this Dollar—in addition to the beaded border—is the bottom of the figure 4 (technically known as the ceriph), which to be symmetrical should correspond with the same part of the figure 1. But it differs in this respect: the 1 tapers off from the upright as it approaches the bottom horizontal line (⊥) while the upright of the 4 passes to the line without the slightest curve or turn (⊥). These marked features—in the beading and the ceriphs—may be counted as infallible tests in establishing the true and precious issue of this year."

In 1907, when the celebrated Matthew A. Stickney collection was sold by S. H. & H. Chapman, the 1804 Dollar was described as follows:

"THE KING OF UNITED STATES COINS!

1804 Original. Upper right hand star almost touches the letter Y. Reverse, the words STATES OF evenly spaced between the eagle's wings. Borders are beaded as are the Dimes of this year. Letters on edge are lightly struck, some almost invisible as is on all the other five examples, there being but six known, as follows: No. 1, U. S. Mint, Philadelphia, weight 415; No. 2, Appleton collection in New England Historical Society, Boston; No. 3, Byron Reed Collection, now in the City Museum, Omaha, Nebraska; **No. 4, W. F. Dunham, Chicago,** (from S. H. & H. Chapman, 1885 to J. V. Dexter, to H. G. Brown, to Mr. Dunham), weight 415; No. 5, James H. Manning, Albany, weight 410; No. 6, the present piece which Mr. Stickney received May 9, 1843."

From the above it will be noted that this, the Dunham 1804 Dollar, is listed as No. 4 of the six original 1804 Dollars known.

Fortunately, Mr. Dunham preserved the original "Certificates of Genuineness" which S. H. & H. Chapman furnished Mr. Dexter in 1885 and 1887, all of which are herewith reproduced. It is most interesting and important to note that these certificates were prepared and signed by the most important personages connected with the early American Numismatics.

This is only the second original 1804 Dollar that I have had the great pleasure of handling in my forty years of numismatic business. The other specimen was in my Sale of the James H. Manning Collection, in 1921, where the 1804 Dollar, which was the least choice in condition of the six originals known, brought $2,500.00 plus 5 per cent. It was purchased by a dealer for whom, about two years later, I sold it for $3,200.00, to a private collector. About three years after I made this sale, I was commissioned by a prominent collector to endeavor to secure for him an original 1804 Dollar. I offered the purchaser of the Manning Dollar $5,000.00 for his coin, but my offer was declined.

The present whereabouts of the six original 1804 Dollars is as follows. I have every reason to believe that this list is correct:

No. 1. In the United States Mint Collection, Philadelphia.

No. 2. Appleton Collection, in New England Historical Society, Boston.

No. 3. Byron Reed Collection, in the City Museum, Omaha, Nebraska.

No. 4. William Forrester Dunham specimen, known as the "Dexter Dollar."

No. 5. Lammot du Pont Collection, Wilmington, Delaware.

No. 6. The Stickney specimen, now in the Wm. C. Atwater Collection, New York. (Purchased at the Stickney Sale, in 1907, by Col. James W. Ellsworth of New York, for $3,600.00. Sold to Mr. Atwater in 1923).

It is most interesting and very important to note from the above authentic list, that of the six original 1804 Dollars known, only three are in private collections! The other three specimens are, of course, out of the market for all time, and very likely the other two are as well.

Such great collections as the Col. E. H. R. Green, which is at least a Two Million Dollar Collection; the Waldo Newcomer Collection, a Million Dollar Collection; the Virgil M. Brand Collection, which was appraised at Three and One Half Million Dollars, and many other great Collections, did not possess an original 1804 Dollar. The Harlan P. Smith Collection, which contained all the rare gold Half-Eagles, including the 1815 and 1822; the Earle Collection, which brought over $50,000.00 in 1912, did not have an 1804 Dollar. Colonel Green and Mr. Newcomer were willing to pay almost any price to obtain a specimen, but none were available.

As has always been truly said that—"ownership and pride of possession contribute a large part of the pleasure of collecting"—surely, then, the joy and pride of ownership of this famous coin, "the King of American Coins," can never be measured in dollars and cents. Its acquisition will provide a thrill which only a true collector can appreciate and enjoy—its ownership, a treasure to be valued and enjoyed an entire lifetime, and which will always be the source of untold dividends in pride and happiness.

Fortunately, Mr. Dunham preserved all the original affidavits, letters, etc., regarding the 1804 Dollar. They are all here reproduced from the original copies. Of course, the originals are included with the Dollar. Particular attention is called to the letter of the Chapmans under date of June 1, 1885, which contains quite a dramatic description of the scene in the auction room when the 1804 Dollar was sold.

Dear Sir,

Your favor of the 27th of May was received to day and we will give with pleasure any account of the sale which may interest you

We had the largest attendance of bidders at a sale since ours of the Warner or Cushnell ~~sales~~ collections, and held orders from 34 collectors ourselves which was a gratifying evidence of their confidence in us and of their knowledge of our character in sending their commissions to us for our own coins catalogued by us and none executed by us, and many have written expressing perfect satisfaction with their purchases. The N York dealers said the conditions were correct.

When the 1804 Dollar was reached everyone gave a subdued Ah! and waited in suspense to see the result.

A call was made of $500 but the auctioneer not hearing, Mr. Scott bid $300 when the former was repeated and ~~the~~ the bidding began, two or three others bidding simultaneously $600 and continuing to $800 when Mr Scott broke to $850 bid $810 next $850; Scott about $875, then 900, Scott 910 and ~~eventually~~

to $980 when Mr. Scott said $985, the nt. $990 when we included the auctioneer and to take use 5.on 70, and Mr. Scott said "$1000" The room broke into loud applause clapping hands and stamping their feet. The auctioneer said "Gentlemen are you done? I must to sell all I can for the coin. You won't have another chance for the 1804 in a thousand.

He paused and after looking around, knocked it down to Mr. Scott, the room again applauding. The two succeeding lots had been sold Mr. Scott stood up and addressing the auctioneers said, "I think as this ~~this such~~ the 1804 dollar is such an important piece the name of the buyer should be announced and I bought it for Mr. J. V. Dexter."

Upon knocking down the piece the auctioneer delivered the coin to Mr. Scott by our instructions

We consider the coin a magnificent piece and we hope you were pleased with it. How did you like the case which we had made for it.

We went to Boston and New York to examine the other specimens things we had seen heretofore, to be positive, and it is the finest.

STATE OF PENNSYLVANIA.

City and County of Philadelphia.

I, A. LOUDON SNOWDEN, of the City, County and State aforesaid do hereby certify and declare as follows:

That I was Register, Chief Coiner and Superintendent of the United States Mint located in the City, County and State aforesaid from May 7. 1857 until July 1. 1885, with the exception of two years in which I was Post Master of the said City of Philadelphia, and am thoroughly familiar with the affairs thereof;

I have a very full and thorough knowledge of the Coins preserved by the said Mint and now forming what is termed the "Mint Cabinet of Coins", among which is a certain Silver Dollar of the year 1804 coined in that year, which Silver Dollar has been in the possession of the authorities of said Mint for more than Forty five years;

I have also seen and examined a certain other Silver Dollar of the said year 1804 sold by the Chapman Brothers of the City, County and State aforesaid to one James V. Dexter, of Denver, Colorado, and am sufficiently familiar with it to express an opinion, and do hereby certify and declare that a comparison of said last mentioned Coin with the one in the Mint first above described, shows that the figures, characters, lettering, edging, etc., etc., on said Coins are absolutely the same, and that the Coin belonging to Mr. Dexter is a counterpart of the one now in the Mint;

I do hereby further certify and declare that in my judgment both of said Coins are genuine Coins, coined at the same time and from the same dies and collar, and that no differences exist between them with the slight exception of the weight, in which respect the Mint Dollar is about one half grain lighter than the one now owned by Mr. Dexter and which is within the legal tolerance allowed by law.

Given under my hand this Tenth day of February A. D. One Thousand eight hundred and eighty seven.

Including the 1836 with GOBRECHT Below Base and the 1838 with Plain and Milled Edge!

1059 1836 Liberty seated, C. GOBRECHT, name of designer, on base. Proof.

1060 1836 Same type as last but the extremely rare variety with C. GOBRECHT below base. Plain edge, as all are. Brilliant proof. Obverse field shows very slight cabinet friction. Listed at $150.00, but has a higher auction record.

BRILLIANT PROOF DOLLAR OF 1838

1838 Same type as the 1836 but with stars on obverse and no stars on reverse. Milled edge. Perfect brilliant proof; just as perfect as the day it was minted. Not the slightest touch of cabinet friction. As perfect a gem of this coin as I have ever seen. Worthy of its highest record. While this coin is listed at $300.00, it has a considerably higher record.

Lot No. 1062

THE EXCESSIVELY RARE 1838 DOLLAR WITH PLAIN EDGE

1838 Same type as last, but the excessively rare variety without stars around eagle and with plain edge. According to Adams-Woodin, only two specimens were struck, or rather only two specimens are known. Listed as A-W 64, Rarity 14. Brilliant proof. I know of one specimen which sold for $750.00. We must remember that the opportunity for the purchase of such a great rarity is just about as rare as is the coin itself. Such a rarity is only available when great collections come on the market.

Lot No.

1068 1844 Uncirculated, with semi-proof surface, but field slightly rubbed from having been in contact with other coins. Very scarce date.

1071 1847 Extremely fine, with bright luster; just a shade from uncirculated.

1073 1849 Very fine, with some original frosty mint luster.

1074 1850 Uncirculated; slight cabinet friction and slightly rubbed in field. Scarce date; especially so choice.

Now only available when large collections come on the market. Easily retails from $65.00 to $75.00.

Lot No.

Lot No.

1099 1878 Variety with eight feathers in eagle's tail. Perfect brilliant proof. Listed at only half the amount of the seven-feather variety, but somehow, judging from the number of specimens that have passed through my hands, I consider this variety just as rare, if not more so.

1100 1879 Perfect brilliant proof. As these proofs are listed at $3.50 to $4.00 each, and some even more, and as they are selling at and above their listed prices, I will appreciate collectors bidding according to present valuation and not according to valuations of five or six years ago. I doubt if on an average, more than five hundred proofs of each date were struck, and certainly a far smaller number exist today.

UNITED STATES TRADE DOLLARS

The Trade Dollars were issued for circulation in, and to compete with the Mexican and Spanish Dollars circulating in the Far East. But the experiment was not successful, so the coins were demonitized or repudiated in 1884 and were redeemable up to 1887. From 1878 on they were apparently coined only for collectors, as the coinage in these years was very small. They are now all scarce in proof condition and have greatly enhanced in value in the past few years. None of the proofs are listed for less than $5.00.

COPPER, BRONZE AND NICKEL COINS OF THE UNITED STATES

Including One of Only Two Known Originals of the 1852 Half-Cent

Coinage began in 1793. Discontinued in 1857. None coined in 1798 and 1799 and 1801, from 1812 to 1824 inclusive; 1827 and 1830, and none coined in 1837, '38 and '39. Coined at the Philadelphia Mint only.

Lot No.

1250 1793 Point of Liberty head between LI. Crosby 1-A. Beaded borders; lettered edge. Just a shade from uncirculated, with beautiful medium olive surface. A magnificent specimen of our first Half-Cent, and as such, rare and valuable, with record up to $50.00.

1251 1794 So-called "large" head. Dark steel color. About fine.

1252 1795 Thick planchet; lettered edge. Planchet shows very light cracks, hardly noticeable. The coin is absolutely uncirculated with the slightest evidence of cabinet friction on the highest portions. Unusually bold impression with fairly broad milled borders. Seldom found so choice. Rare and valuable.

Lot No. 1253

1796 Variety with pole to Liberty cap. Strictly **very fine.** And for this great rarity, can be classed as extremely fine, sharp and well struck, with nice glossy olive surface. This great rarity is originally from the famous B. H. Collins' Collection of Washington, who secured the coin from Lincoln of London, in 1890, more than a half century ago. Outside the specimen I handled in the Newcomb Collection, this is by far the finest specimen of this rarity that has ever passed through my hands. As is well known, the 1796 Half-Cent is seldom found better than very fair, or at most, good. I believe this specimen to be the third or fourth finest known. Formerly valued at $350.00. One of the rarest of all American copper coins, and in its remarkably choice condition, one of the outstanding rarities in this great Sale.

Lot No.

1254 1797 Plain edge. Perfect die. Broad milled borders on obverse. Fine; strictly so for this coin. Scarce. Few collectors realize the rarity of the early Half-Cents in choice condition.

This rare date is usually found only fair or very fair. One of the most difficult dates to find in acceptable condition. Rare and valuable.

THE ALMOST UNIQUE 1852 HALF-CENT
Original or Large-Berry Variety

1852 Half Cent. **Original; large berries on reverse.** The obverse is the same as that of the 1848 Half Cent, large berries. The reverse is the same as that of 1840. Golden iridescent brilliant proof. Classed by Gilbert as Rarity 10—the highest rarity rating. **Only two known in proof.** This is the first one to be offered since 1906—the first in thirty-five years!

This is the first specimen of this great rarity that has ever passed through my hands, either at private sale or at auction. In all of the great collections which I have handled, including the Waldo Newcomer Collection, which had a total value of nearly a Million Dollars, this Half-Cent was lacking. And if my information is correct, even the great Brand Collection, a Three and One-Half Million Dollar Collection, did not have this coin. As far as I know, only two specimens are known in proof. A third specimen, sold in the Alvord Sale some fifteen years ago, was described as "very good, pitted with corrosion."

The only sale records I can find of proof specimens is one in the Mills Sale, in 1904, where it was stated that but two specimens were known. And the other record of sale, in the George W. Rice Collection, sold in 1906. Whether or not the Rice specimen was the identical coin formerly sold in the Mills Sale, I am unable to say, but I believe that it was. The specimen here offered is the one from the Rice Collection.

About ten years ago I purchased what I believe to be the finest and most complete collection of Half-Cents that has ever been brought together—the Howard Newcomb Collection. It contained every date and every known variety in superb condition, including a semi-proof 1796, for which Mr. Newcomb paid over $700.00. BUT it did not have an original 1852! I consider this coin the rarest United States copper coin! One of the rarest of the entire United States coinage. This is only the third time that a specimen is offered in the period of thirty-seven years, and I'm quite certain that it is the same coin heretofore offered twice. This is the first time in thirty-five years that a proof specimen is offered. Mr. Dunham valued this coin at $2,500.00. While, of course, I do not value this coin at anywhere near such an amount, it is certainly worth well into the three-figure mark.

Lot No.

1302 1853 Uncirculated, almost full mint red. Just the slightest touch of olive surface. This is quite a rarity in mint red condition. One of the most difficult of all Half-Cents to find in mint red. Extremely rare.

1303 1854 Uncirculated; olive surface.

1304 1855 Uncirculated; full mint red. Just about as perfect as the day it was minted. Not a rare date but very scarce so choice.

1305 1856 Proof, but not in full brilliancy; iridescent purple surface. Rare in proof.

1306 1857 Last year of issue. Uncirculated; mint red nicely blended with olive. Scarce.

1307 Duplicate set of U. S. Half-Cents. 1793 to 1795; 1797, 1800, 1802 to 1811, including two varieties of 1804; two of 1805; two of 1806; 1825, '26, '28 twelve and thirteen stars; '29, '32 to '35; 1837 "Pure Copper"; 1849 to 1857. The earlier dates are fair and very fair. From 1803 on, they are very good to extremely fine and uncirculated for some of the later dates. A nice average collection. If purchased separately would cost at least an average of $1.25 to $1.50. Please make your bid by the piece. Thirty-six pieces.

LARGE U. S. CENTS

Coinage commenced in 1793; discontinued in 1857. Coined in every year excepting 1815. This series is probably the most popular of all of the United States coinage. There is some fascination about the large copper cents which no one can explain, but it seems that every collector of American coins is interested in the large cents. They have always commanded comparative higher prices than any other series of our coinage.

1308 1793 Chain type. AMERI. Crosby 1-A. Obverse, good to very good. Reverse, about fine. Unusually bold impression on reverse. An acceptable specimen of our first Cent. Very rare. Listed at $50.00 in fine condition and $25.00 in very good.

1309 1793 Chain type. Second variety, with AMERICA. Crosby 1-C. LIBBERTY near border, and wide date. Very fine, especially for this coin. Very light edge nick on obverse edge near 7, and pin-point nick on chin. Slightly glossy dark olive surface. A most attractive Cent and worthy of a home in any collection. Listed at $40.00.

1310 1793 Chain type. Small LIBERTY with periods after LIBERTY and date. Crosby 4-C. Strictly very good. Rare.

1311 1793 Wreath type. Sprig with curved stem; vine and bars on edge. Small LIBERTY. Crosby 9-G. Extremely fine, with glossy medium olive surface. The usual light die break in center of reverse. The coin is well centered and struck with full perfect beaded borders. A beautiful cent and equal to specimens that have sold from $75.00 to $100.00.

1312 1793 Wreath type. Obverse as last but reverse different. Crosby 9-H. Variety with die break from stem through CA. Strictly very good. Rare.

1313 1793 Wreath. Crosby 11-J. Lettered edge. Unusual counterstamp, rectangular stamp on Liberty head, in which is stamped B. E. ADBUR. Another oval counterstamp to the left of head with small eagle. The first I have ever seen and can find no record of it. Very good. Undoubtedly rare.

Lot No.

1314 1793 The rarest variety of this date, Liberty cap variety. Crosby 12-L. Extremely rare variety. The coin is really extremely fine; the reverse which is usually found weakly struck, is unusually bold. However, the obverse is slightly pitted and a few pits on reverse. It is perfectly centered and well struck with complete beaded border. Excepting the few slight minor defects, this coin would have been in the $200.00 to $300.00 class. An ordinary fine specimen is listed at $100.00.

1315 1794 Hays No. 24. Fine; light brown surface. Very scarce.

1320 1798 Perfect date. Extremely fine; sharp; not far from uncirculated. Highest portions show slight cabinet friction; even dark olive surface. One of the most difficult dates to find in choice condition. Rare and valuable; far more so than is generally realized.

1321 1799 Perfect date. Certainly fine for this coin. A tiny nick on obverse to left of bust. Medium brown color, quite unusual, as the 1799 Cents are always found of a dark steel color. Very rare and valuable. Valued at $100.00.

1322 1800 Perfect date and die; slightest die break through first 0 in date. Very fine, with even dark olive surface. Another most difficult date to find choice.

1333 1804 Perfect dies. Strictly very good. Tiny nick on lower reverse edge at first 0 in fraction. The reverse is almost fine. Far above the average for this rare date.

1334 1804 Re-strike from rusty dies. Obverse, 1804; reverse that of a later date Cent. Uncirculated; the obverse is reddish olive; reverse is almost full mint red.

UNITED STATES PATTERN COINS

The numbers given after each coin refers to the excellent work on the subject by the late Edgar H. Adams and W. H. Woodin. (The late Secretary of the United States Treasury.)
It is of interest to quote here a portion of the "introduction" as given by Adams-Woodin:

> "Coins are the metallic footprint of nations. Often, through changes of the designs of the coinage of the countries, many phases of its development can be traced, therefore, a compilation of the many experimental designs for the coins of our country should be most interesting and instructive from a historical standpoint.
>
> "Pattern pieces, in the opinion of many who have made a particular study of this series, represent one of the most interesting sections of the many subdivisions into which the coinage of the United States is divided. They embrace the many metallic attempts of the designers of the mint to produce a coin containing a new suggestion in the way of a device, a motto, or a plan of coinage. And through a study of these various pieces, one may trace the development of many of the familiar coin designs which have long been circulated throughout the country."

In my opinion, the U. S. Pattern Coins embrace some of the most beautiful designs of our entire coinage. Every collector should have at least a few Patterns of each series to compare with the regular issues. Incidentally, Pattern Coins are now again on the "upgrade." The number issued was very limited, hence they are sure to represent a most profitable investment as well as a source of great pleasure and satisfaction in ownership.

The Adams-Woodin book on Patterns was published in 1913. Until recently these books were very rare and easily sold from $10.00 to $12.00 per copy. An excellent re-print has just been issued. It is an exact copy of the original, with all of the many hundreds of illustrations and full 196 pages. Illustrations are all halftones, giving the rarity of each piece. This book I can now supply for only $3.00 postpaid. Only a limited number have been issued, so I'd advise your ordering it now.

Lot No.

1702 **Pattern Cents,** 1836. Size of large cent. This is a trial piece. Liberty cap within rays. Reverse, "First Steam Coinage, Mar. 23, 1836. United States of America." Copper; thick planchet. Light purple and olive proof. Slight imperfection on reverse edge.

1703 Cent, 1836. As last, but struck on thinner planchet. Struck as proof, but now extremely fine with iridescent surface.

1704 Cent, 1850. Obverse; CENT. ONE-TENTH SILVER. Reverse, UNITED STATES OF AMERICA in wreath. Perforated center. Struck in composition. A-W 124. Only about fifty struck. About uncirculated. (Retails at about $7.50.)

1705 Cent, 1851. Obverse, Liberty seated as on the Quarter dollars. Reverse, large 1 CENT in wreath. Copper. Plain edge. Raised borders with wire edge. Semi-proof. A-W 148. Only about twenty-five coined. Rare and a most interesting coin.

1706 Cent, 1854. Liberty head with date, no stars. Reverse, type of large cent but trifle smaller. A-W 186. Copper. Scarce and in demand.

1707 Cent, 1855. Large flying eagle; date below; thirteen stars. Reverse as last. Copper. A-W 200. Uncirculated, was struck as a proof and now has a nice even medium brown surface.

1708 Cent, 1855. Same as last, but a beautiful iridescent proof.

1709 Cent, 1858. Indian head. Reverse, olive wreath. A-W 264. Copper nickel. Proof, but not in full brilliancy. Can be classed as uncirculated with proof surface. Rare and in great demand. Retails up to $10.00.

1710 Cent, 1859. Reverse of 1860. Bright uncirculated with proof surface. A-W 312. Only about 100 coined. Far more rare than the 1856 Eagle.

1711 Cent, 1868. Same type as the nickel 3c piece, excepting that it is smaller and has the Roman figure I on reverse. Struck in nickel. A-W 700. Proof, Rarity 12. Only about eight coined. (Cost $10.00.)

1712 Cent, 1885. ONE CENT, shield with sprig on either side. Reverse, legend and date. Struck in silver. Perforated center. A-W 1723. Only about twenty coined. Very rare and of highest interest.

1713 **Two-Cents, 1863.** Type of regular issue, but with the word CENTS very much curved, and with motto, GOD OUR TRUST. Copper. Proof. Olive surface. A-W 412. Only fifty coined. Far more rare than the 1873 which now sells up to $15.00.

1714 Two-Cents, not a Pattern, but one of the most curious struck U. S. coins I have ever seen. The reverse is perfect, but the other side has the reverse incused, or stamped in very much larger. The planchet is 29 mm., while the regular 2c piece is only 23 mm. Iridescent olive proof. Cost $10.00 many years ago.

1715 **Three-Cents, 1849.** Obverse, same type as the Half-Dime, with Liberty seated. Reverse, large figure 3 in plain field. Milled edge. A-W 108. Proof; the reverse not in full brilliancy. Rare and very interesting coin. Only twenty-five coined. Certainly worth as much and more than any of the regular 3c silver pieces.

Lot No.

1716 Three-Cents, 1850. Liberty cap and rays, date below. Reverse, III in wreath; legend. Plain edge. Silver proof. A-W 110. Very scarce. Retails up to $7.50, yet far more rare than the 1864.

1717 Three-Cents, 1868. Type of regular issue, but with broad borders on obverse, and tobacco wreath enclosing value. Wire edge. Brilliant proof. A-W 688. Rarity 12. Only eight coined. Very rare and valuable.

1718 Three-Cents, 1868. Type of regular issue but slightly larger planchet and laurel wreath. A-W 692. Rarity 12. Only about eight coined. Brilliant proof, but slight imperfection on obverse where someone had marked a number or figures, but the reverse is perfect. Very rare. Certainly worth more than the 1877.

1719 **Five-Cents.** 1882. Type of the 1883 without the word CENTS. A-W 1675. Brilliant proof. Only 25 coined. Excessively rare. Seldom offered. Worth a great deal more than the 1877 which now retails for $20.00. This coin was purchased in 1914, and at that time $15.00 was paid for it. This one is worth at least $25.00 or more.

1720 **Half-Dime.** 1870. Liberty seated; different than on regular issue. Reverse, type of regular issue. Copper; plain edge. A-W 1046. Only 15 coined. Light olive proof. Cost $12.50.

1721 **Quarter-Dollar.** 1870. Beautiful head of Liberty with diadem. Reverse, large 25 and small CENTS, and date in wreath. Silver; milled edge. A-W 970. Proof. Rare. Only about 25 coined.

1722 Quarter-Dollar. 1870. Liberty head with cap and star on forehead. Reverse as last. A-W 958. Proof. Only about 25 coined.

1723 Quarter-Dollar, 1870. Liberty head with star on forehead. Reverse as last. Milled edge. A-W 964. Brilliant proof. Just as rare as last.

1724 **Half-Dollar.** 1859. The Paquet design. Liberty seated with shield and fasces. Reverse, large standing eagle; legend and value. Copper, milled edge. A-W 285. Only about 100 coined. Very fine.

1725 Half-Dollar, 1859. Beautiful head of Liberty with oak laurel. Reverse, HALF DOLLAR in wreath. Copper; milled edge. A-W 293. Extremely fine. Retails at about $7.50. Only about 100 coined.

1726 Half-Dollar, 1861. Type of regular issue, but with motto on scroll, GOD OUR TRUST. Iridescent purple proof. Copper. A-W 348. Only about 50 coined.

1727 Half-Dollar, 1863. Same type as last but the motto in plain field. Copper proof. A-W 375. Only about 50 coined. This coin was purchased from J. W. Scott, in 1910. Mr. Scott was the founder of the present Scott Stamp and Coin Co.

1728 Half-Dollar, 1863. Type as last, but motto on scroll. A-W 377. A beautiful brilliant copper proof, with high wire edge on obverse. This coin cost $5.00 in 1910. Is really worth several times that amount today.

1729 **Dollars.** 1865. Type of regular issue, but with motto IN GOD WE TRUST, (the motto was not used on the regular issues until 1866). Copper. A-W 491. Proof. Only about 15 coined. Extremely rare. Record at $25.00 and has sold for more.

1730 Dollar, 1873, Trade. Obverse, type of regular issue. Reverse, very small eagle. A-W 1308. Silver proof. Only about 50 coined. Rare.

1731 Dollar, 1878. The Bland Dollar, named after Congressman Bland, who projected the proposal for the issue. Type of regular issue but with only three leaves in olive branch. A-W 1560. Beautiful iridescent copper proof. Only about 15 minted. Very rare. Valued at $25.00.

Lot No.

1732 Dollar, 1878. The Barber design. Beautiful large head of Liberty. Reverse, standing eagle. A-W 1563. Copper. Only about 25 coined. Was struck as a proof. Has some brilliancy, but shows slight cabinet friction. A beautiful and rare coin.

THE GOLD COINS OF THE UNITED STATES

Mr. Dunham did not go in extensively for the branch mints of the gold coins, but he did complete, with only one exception, a complete set of all the dates of the United States gold coins until the time he ceased to be actively interested in numismatics. The only exception is the 1815 Half Eagle, which Mr. Dunham had several opportunities to purchase, but as he told me personally, some ten years ago, that the reason he never bought this coin is that it was the only date he lacked and that he felt that if he purchased it, he would have nothing else to look for and feared that it would result in his loss of interest in numismatics and in his collection.

But to offset this single exception, he was wise to secure in the early days, 'way back in 1906, thirty-five years ago, the "King of all American Rarities"—the 1822 Half-Eagle, which is here offered for the first time in thirty-five years and only for the second time in the history of American numismatics extending over a period of more than one hundred years!

UNITED STATES GOLD DOLLARS

The first gold dollar to be minted by the United States was in 1836, a Pattern. (Lot 1819). The regular issue began in 1849 and discontinued in 1889. The gold dollars were also issued at the branch mints of Charlotte, N. Carolina; Dahlonega, Georgia, New Orleans and San Francisco. Commemorative gold dollars were minted in 1903, 1904, 1905, 1915, 1916, 1917 and 1922.

The Most Beautiful 1864 Gold Dollar

1864 Struck in yellow gold; sharp impression. The most perfect and magnificent brilliant proof of this rarity I have ever seen. Perfectly and evenly struck with slightly raised borders and wire edge. Not the slightest mark or spot to mar its beautiful appearance. While this date is rare in any condition, but in this remarkable state I consider it even more rare than the 1875. For my own satisfaction I looked through catalogs covering a period of more than twenty-five years, and including of course all of the important Sales held during that period. I found that there were a great many more 1875 proof gold dollars offered than that of 1864, and not a single specimen matched this one. It is simply superb. I may be enthused about it, but it is really a thrilling coin to look at and more thrilling to own. If I had this coin in stock, I would not part with it for less than $100.00, which I think is a fair price for it.

1840 **1865** Brilliant semi-proof; just about equal to a perfect proof. Sharp and perfect in every respect, with raised borders and wire edge. A magnificent specimen of this rarity. Listed up to $75.00 and certainly worth it in this remarkable condition.

Surely, they have been in this Collection for more than thirty-six years. This date gold dollar in proof condition is listed at $150.00. This is by far the finest I have ever seen or handled and is worth all and more than its listed price. Only 420 coined.

1851 1876 Brilliant proof. Rare in proof. Catalogs at $15.00 and certainly worth it.

1852 1877 Brilliant uncirculated, with semi-proof surface. As rare as the 1876.

1873 1850 D. Mint. Very fine; sharp. Very rare. Recent record of over $25.00.

1874 1858 D. Mint. The first 8 and 5 are not as bold as the balance of date, but they are very plain; much more so than usual. Practically uncirculated with bright mint luster. Very rare so choice. Listed at $20.00 in only very fine condition.

1875 1859 D. Mint. The 5 in date is not struck up. Very good. Rare.

1876 **1860 D. Mint.** The coin has the appearance of a perfect brilliant proof, but it had apparently been burnished, although the coin does not show it. While it is rated as the second rarest gold dollar of this mint and listed at $150.00, but I consider it far more rare than the 1861 which is now listed at $175.00 but has a record of $350.00. This coin is worthy of a home in any collection.

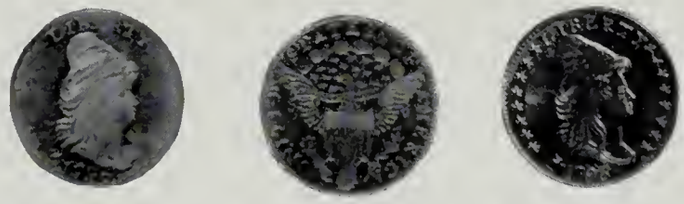
UNITED STATES QUARTER-EAGLES or $2.50 GOLD PIECES

Coinage began in 1796 and discontinued in 1929. None coined in 1799, 1800, 1801, 1803, 1809 to 1820 inclusive, 1822 and 1823, 1828. Minted at the Philadelphia, and all Branch Mints.

(In order to conserve time and work, please note that bids for less than $4.25 each will not be considered for any $2.50 gold piece.)



1904 **1796** First year and first type. Variety without stars on obverse. Just a shade from uncirculated, with considerable semi-proof surface, especially on reverse. The upper right part of reverse is not as bold as the rest of the coin. A beautiful specimen of this rare and valuable coin. Listed at $150.00 in very fine condition.

1905 **1796** The second variety, with sixteen stars on obverse. Extremely fine, with considerable semi-proof surface. Extremely rare. Listed at $250.00.

1906 **1797** The usual die break on obverse, as found on all the specimens of this rarity. Extremely fine, with considerable luster. Very light hair-line marks on left obverse; the reverse is sharp and beautiful. One of the very rarest of the early Quarter-Eagles with record up to $300.00.

1907 **1798** Beautiful uncirculated specimen with semi-proof surface; highest portions show slight cabinet friction and the upper center of reverse is not as bold as the balance of the coin. A magnificent specimen of this rarity. Seldom offered. Listed at $150.00 and seldom obtainable at that price.

Lot No.

1908 1802 Extremely fine, with frosty mint surface. Quite scarce. Listed at $40.00 in very fine condition.

1910 1805 Strictly fine.

1911 1806 over '04. Practically uncirculated, with considerable luster. A hardly noticeable nick at O in OF. This does not affect the appearance nor value of the coin, but due to its rarity, it should be mentioned. Recent record of $85.00.

1912 1807 Just about uncirculated, with frosty mint surface. An infinitesimal nick on edge at Y. Not a rare date, but quite rare so choice. Lists at $30.00 only in very fine condition.

1913 1808 First year of the new type, with bust to left. Very light nick on obverse right stars. Extremely fine. Rare. A most difficult date to find choice. A similar specimen in my Sale of the Hale Collection brought $55.50. This date seems to be in great demand, as I notice that I had twenty-one bids for the specimen in the Hale Sale.

1914 **1821** Strictly very fine, with some luster. Very rare. Not in the great Hale Collection. A far more rare coin than its listed price of $75.00 to $125.00 would signify.

1915 **1824 over '21,** as all are. An imperceptible pin-point nick in field of reverse. Extremely fine, with considerable mint luster. Very rare. Listed up to $100.00.

1916 **1825** Beautiful uncirculated specimen; sharp, with brilliant semi-proof luster. Extremely rare so choice.

1917 **1826 over '25,** as all are. Practically uncirculated; in fact the coin is uncirculated with just the slightest cabinet friction, as it has full bright mint luster. Excessively rare. One of the rarest of American gold coins. A similar specimen in my Sale of the Hale Collection brought $315.00.

1918 **1827** Uncirculated, with frosty mint surface. The highest portions show just the slightest cabinet friction, but every star is bold and full. Another great rarity. Catalogs at $175.00. A specimen not quite as choice in my Sale of the Hale Collection brought $157.50.

1919 1829 Brilliant uncirculated; obverse is equal to a proof. The highest portions show just the barest touch of cabinet friction. Last record, $62.50.

1920 1830 Brilliant semi-proof; equal in every respect to a perfect proof, with raised borders. Not a particularly rare date, but very rare so choice. Seldom found better than very fine.

1921 1831 About uncirculated with considerable luster. Quite rare. Record in my Hale Sale, $38.75 for a somewhat better specimen.

1922 1832 Beautiful uncirculated specimen with frosty mint surface; raised borders. Very rare so choice.

1923 1833 About uncirculated; the highest portions show very slight cabinet friction and the surface has considerable proof luster. Quite rare.

Lot No.

1929 1838 Uncirculated, with mint luster; broad borders. Rare so choice. Listed at $10.00 in very fine condition. This one certainly worth much more.

Lot No. 1932

The Excessively Rare 1841 Quarter-Eagle

1841 Quarter-Eagle or $2.50 Gold of the **Philadelphia Mint.** Finely milled edge, typical of the Philadelphia Mint gold coinage of these years, and not the coarse milling of the Charlotte Mint. This rarity was originally struck as a proof and still maintains quite a bit of proof luster around the stars and legend, but has seen some circulation. It can easily be classed as extremely fine and only a shade from uncirculated. I doubt if more than six specimens are known to exist. According to the Mint records, no Quarter-Eagles were minted at the Philadelphia Mint in this year, but apparently some proofs were struck on order for the few collectors then in existence.

To the best of my knowledge the only other specimen ever to have been offered at auction in this country was the one sold in my Sale March 26th of last year. The coin was fine, and it sold for $605.00. As mentioned in my catalog of that Sale, Mr. Adams, in his "Official List," published in 1909, stated that only two specimens of this coin were then known to exist, one in the Mitchelson Collection, now owned by the State of Connecticut, and the other in the United States Mint Collection, both specimens of which, of course, are out of the market for all time. Four or five specimens have been discovered since Mr. Adams' work appeared in 1909. The first of these specimens, discovered about eleven years ago, was sold at private sale for over $3,000.00. Since then other specimens have sold for less, but above $1,000.00. The last specimen offered, as mentioned above, brought $605.00. I consider it probably the rarest Quarter-Eagle and one of our very rarest gold coins.

1933 **1842** Philadelphia Mint. Fine to very fine. A light, hardly perceptible scratch on obverse. Very rare. At one time it was hardly known to exist and one of the first to have been offered at auction, nearly thirty years ago, brought $155.00. It is not worth that amount today, but it does sell for around $50.00.

1964 1865 Brilliant uncirculated, with proof surface. Extremely rare and valuable. Edge is like a proof. Listed at $125.00 in proof condition.

1965 1866 San Francisco Mint. Just a shade from uncirculated, but with brilliant luster.

1969 1870 Brilliant uncirculated; slightest marks of cabinet friction, but with full mint luster. Quite rare.

1970 1871 **Brilliant proof,** with wire edge. The field on reverse shows slightest cabinet friction. These gold coins in proof condition are far more rare than we realize. Only a limited number were struck and of that number probably not half are in existence today.

1971 1872 Perfect brilliant proof, with bold impression, raised borders and wire edge. A gem. Just as perfect as the day it was struck. Catalogs at $35.00 and certainly worth it.

1972 1873 Uncirculated, with frosty mint surface. Scarce so choice.

1973 1874 Uncirculated, with bright mint luster. Quite rare, especially so choice.

The 1875 Quarter-Eagle in Brilliant Proof

1875 Magnificent perfect brilliant proof, unusually bold impression with complete sharp wire edge on both sides. This coin, as the other gold denominations of this year in this Collection are from a proof set purchased by Mr. Dunham in 1906. Here's one coin the rarity of which has not been appreciated. Only 420 specimens were struck in all. Just how many proofs were struck, I do not know, but I doubt if more than five per cent were in proofs. We find some of the greatest collections that have been sold in the past fifty years, did not have this coin in brilliant proof. The Hale Collection, which was in course of formation for over forty years, did not have any kind of a specimen. I consider this coin, in brilliant proof condition, almost as rare as any Quarter-Eagle. The price at which it is listed in the Standard Catalog, that of $150.00, is but a small part of its real value. I consider it worth at least double its listed price.

1975 1876 Brilliant uncirculated, with semi-proof surface. Listed at $30.00 in proof.

1976 1877 San Francisco Mint. Brilliant uncirculated, with proof surface.

COMPLETE SET of U. S. THREE-DOLLAR GOLD PIECES of the PHILADELPHIA MINT

INCLUDING a MATCHLESS PERFECT PROOF of the EXCEEDINGLY RARE 1875!

The coinage of $3.00 gold pieces began in 1854 and were coined continuously to and including 1889. In 1854 they were also minted at the New Orleans Mint and Dahlonega Mint; and at the San Francisco Mint in 1855, '56, '57 and 1860. In 1870, two specimens were struck at the San Francisco Mint, one of which was placed in the corner stone of the Mint Building. The other is now in a famous collection, originally secured from the great Newcomer Collection which I had the pleasure of handling about nine years ago.

(As the average minimum retail price for any $3.00 Gold Piece is about $7.00, and as these are all in choice condition, a starting bid of $6.50 will prevail on any $3.00 Gold Piece in this sale.)

2022 1854 First year of issue. Uncirculated, with frosty mint surface. While this is the oldest date of the issue, but probably one of the least rare. However, it is very scarce in this choice condition.
2023 1854 New Orleans Mint. Struck in light yellow gold. Only $3.00 gold piece issued at this mint. Very fine, with some luster.
2024 1854 Dahlonega Mint. Extremely fine; sharp. Extremely rare. Listed at $50.00 in very fine condition. Only date of the $3.00 gold pieces minted at this mint.
2025 1855 About uncirculated, with frosty mint surface Scarce so choice.
2026 1856 About uncirculated, with frosty mint surface.
2027 1856 San Francisco Mint. Very good.
2028 1857 Extremely fine with mint luster.
2029 1857 San Francisco Mint. About fine.
2030 1858 Extremely fine; sharp, with some luster. Rare date. Listed at $25.00 in very fine condition.
2031 1859 Just a shade from uncirculated, with frosty surface.
2032 1860 Brilliant uncirculated; sharp, with semi-proof surface. Scarce date in very scarce condition.
2033 1861 Nearly uncirculated, with some luster. Very scarce.
2034 1862 Struck in light gold. About uncirculated with frosty mint surface.

2039 1867 Brilliant uncirculated; field shows slight evidence of handling. Rare.

2040 1868 Brilliant semi-proof; originally purchased as a proof and just about equal to a brilliant proof. Very rare so choice. Listed at $30.00.

2041 1869 Brilliant semi-proof. Rare. Listed up to $30.00 in proof.

2042 1870 Semi-proof, but surface shows slight cabinet friction. Rare date, especially so choice.

2043 1871 Brilliant uncirculated with proof surface; almost equal to a proof. Listed at $25.00 in proof.

2044 1872 Proof, with wire edge. Rare in proof. Listed at $30.00.

2045 **1873** Proof, but obverse field shows slight cabinet friction and not in full brilliancy, but unusually well struck for this rarity, and far above the average found. According to the Mint report, only twenty-five specimens were coined, but I hardly think this report is correct, as I believe that a larger number of specimens are known to exist. But the coin is extremely rare and is listed at $150.00 in proof condition.

2046 1874 One of the least rare dates of the series. A beautiful uncirculated specimen with a very light spot on obverse, hardly noticeable. Scarce so choice.

THE EXCEEDINGLY RARE 1875 THREE-DOLLAR GOLD PIECE

1875 The most magnificent matchless brilliant proof of this great rarity that I have ever seen. An unusually bold impression with complete wire edge on both sides. It is from the Proof Set of which the other 1875 gold coins in this Collection came from. Only 20 specimens coined, of which number I doubt if more than half are now in existence. The only time this great rarity is available is when such great collections as this come on the market. This coin, of course, has been in the Dunham Collection for thirty-five years, and while its rarity does not require any additional pedigree, but the fact that it does come from the Dunham Collection does add considerable to its prestige and value. The last one offered at auction was about four years ago, when it brought $1,750.00. I know of one specimen which was sold at private sale for $2,000.00. This is indeed a most thrilling coin to look at and will certainly be a source of great satisfaction and pride in its ownership. And I dare say not an unprofitable investment. (It may interest you to know that when Mr. Dunham purchased the complete gold proof set of 1875, from the $1.00 to and including the $20.00 gold piece, he then paid only $440.00 for the complete set.)

Lot No.
2048 **1876** Proof. The highest portions show slight cabinet friction and the field is not in full brilliancy. It is unusually sharp struck. Second actual rarest date $3.00 Gold Piece, although the mint report states that 45 specimens were coined, and only 25 of the 1873, but this date is by far more rare. It has a record of over $300.00.

Lot No.

2049 **1877** The most magnificent perfect brilliant proof I have ever seen of this rare date. Sharp wire edge on both sides; sharply struck. This can certainly be classed as a "blistering" proof. For the information of the average collector, I might say that a careful check up of the number of brilliant proofs of this coin offered in the past forty years, conclusively decides me to make the statement that this $3.00 gold piece in brilliant proof condition, is just as rare, if not more so, than the 1876. While there were more 1877's offered during that period, but far fewer 1877 Proofs than that of 1876. Recent record of $150.00. And as mentioned before, I consider it just as rare, if not more so, than the 1876.

2050 1878 One of the least rare dates of this series, but this is a beautiful semi-proof; sharp and perfect, and is rather scarce so choice. I know of only one real proof of this coin in existence. To illustrate in value, I might say that this coin here offered, although in very choice condition, is worth about $7.50 to $10.00, yet a real honest-to-goodness brilliant proof I would myself pay $50.00 for it.

2051 1879 Brilliant uncirculated. Very scarce date. Only 3,030 coined.

2052 1880 Brilliant semi-proof; sharp with wire edge. Originally purchased as a proof. Only 1,036 coined. Rare, especially so choice.

2053 1881 Semi-proof; field shows slight cabinet friction. Very rare. Only 550 coined. Listed up to $30.00.

2054 1882 Proof. Very scarce. Listed at $20.00.

2055 1883 Sharp brilliant proof with complete wire edge on both sides. Struck in medium yellow gold. From a proof set. A gem and quite rare so choice, as only 940 specimens were coined in all.

2056 1884 Proof; partly wire edge. Rare. Only 1,106 coined.

2057 1885 Proof; partly wire edge; not in full brilliancy. Rare. Only 910 coined. Listed at $35.00.

2058 1886 Brilliant proof but with slight cabinet friction. Rare so choice.

2059 1887 Very fine.

2060 1888 Bright uncirculated with full frosty mint luster.

2061 1889 Last year of issue. Brilliant uncirculated, with proof surface.

Accompanying this coin, is a letter or memorandum from the Treasury Department, Bureau of the Mint, dated April 30, 1895, signed by R. E. Preston. This memo states as follows: "The Stella or $4.00 piece contains 6.0 grains of fine gold; 0.3 grains of fine silver; 0.7 grains of fine copper. The value of the fine gold contained, $3.9876. The value of the fine silver at 1 to 16, .0125, (total $4.0001).

"These coins were composed of an alloy formulated by one William Wheeler Hubbell, and about five hundred were struck under a joint resolution of Congress."

"(Signed) R. E. PRESTON."

Lot No. 2063

The Excessively Rare Four-Dollar Gold Piece With "Coiled Hair"

1879 $4.00. Obverse, same head as last, but the hair is coiled, (see illustration above). Brilliant proof, with slight wire edge. Excessively rare, as only twelve specimens were coined. I do not recall when I had another specimen pass through my hands. I might have had one in my forty years of experience, but I do not recall it. The only record I can find is one sold at auction in 1921, twenty years ago, at which time the coin brought $310.00. Certainly worth a great deal more today. Easily a $500.00 coin.

Lot No. 2064

The Excessively Rare Four-Dollar Gold Piece of 1880

1880 $4.00 Gold. Liberty head with flowing hair. Same type as Lot No. 2062. Struck in yellow gold; wire edge. Magnificent perfect brilliant proof. Excessively rare. Only about twenty coined. I can find only two auction records for this great rarity; one in 1921, where the coin brought $250.00, and another in 1938, where it brought $405.00. I know of one specimen which sold in the last year at private sale for $500.00. In all of my forty years of numismatic experience, I doubt if more than three specimens have passed through my hands.

UNITED STATES HALF-EAGLES OR $5.00 GOLD PIECES

INCLUDING the "KING of ALL AMERICAN RARITIES,"—the 1822 HALF-EAGLE

Coinage of the Half Eagles began in 1795; discontinued in 1929. None coined in 1801, 1816 and 1817, and from 1916 to 1928 inclusive, with the exception of the San Francisco Mint where it was coined in 1916. Minted also at Dahlonega, Georgia, from 1838 to 1861; at Charlotte, N. Carolina, from 1838 to 1861; at Carson City, Nevada, from 1870 to 1893; at Denver, 1906 to 1914 with the exception of 1912 and 1913; and at the San Francisco Mint from 1854 to 1916.

(Bids for less than $8.25 will not be considered for any Half-Eagle.)

Lot No.

2065 1795 First year and first type of issue. Reverse, eagle holding olive wreath in beak, standing on branch; legend. Variety with leaf on left touching lower right part of last S in STATES: The top of 5 just barely touches bust. Uncirculated, with semi-proof surface; the highest portions show slight cabinet friction. A gem, and as such, quite rare and valuable. A beautiful specimen of our first Half-Eagle.

2066 1795 Type as last; small eagle, but variety with most of top of 5 on bust, and star on right distant from bust: Reverse, leaf does not touch last S. Extremely fine, witth considerable luster.

Lot No. 2067

The Excessively Rare 1795 Half-Eagle with LARGE Eagle

1795 Obverse, same type as last, but of an entirely different die. Reverse, **heraldic eagle.** Magnificent brilliant semi-proof, nearly equal to a brilliant proof. A gem. Excessively rare in any condition. One of the really great rarities of our early Half-Eagles, and in this remarkable condition it is truly a prize. I do not recall having a specimen in one of my Sales since the great Ten Eyck Sale in 1922, nearly twenty years ago. It has an auction record of about $300.00 made over twenty years ago, and today I consider the coin worth more than double that amount, especially in this choice condition.

Lot No.

2068 1796 over '95, as all are. Same type as the small-eagle variety of 1795. Fine, but field to left of head slightly rubbed. Rare date. Listed at $100.00 in very fine.

2069 **1797 over 1795.** Very plain over-date. Reverse, heraldic eagle. Uncirculated, with brilliant mint luster; only the faintest touch of cabinet friction. A magnificent specimen of this excessively rare coin. By far the rarest variety of this excessively rare date. As far back as 1926, fifteen years ago, a specimen sold for $650.00. In records extending over a period of nearly fifty years, I doubt if more than a half dozen specimens have been offered at auction. The coin is cataloged at $500.00, but it is worth at least double today, if not more so.

2070 1798 Heraldic eagle type. Obverse, with thirteen stars instead of fifteen. The obverse die is of the same die as the great rarity with small eagle, the last specimen of which was sold by me in the great Ten Eyck Sale, in 1922, and brought $5,250.00. This specimen, of course is with the large eagle. Just a shade from uncirculated, with considerable bright mint luster. Very scarce, especially this die.

Lot No.

2071 1798 Same type as last, but stars are irregular, smaller on right than those on left, and perfect die. The reverse, while of the same type, is of an entirely different die. Very fine.

2072 1799 Variety with last 9 almost touching bust: Reverse, leaf of olive branch touches R. Extremely fine, with some luster. Quite rare. Listed at $50.00.

2073 1799 Different die; figure 9 more distant from bust, and the reverse die, leaf distant from R. Uncirculated, with frosty mint surface. Highest portions of Liberty head show slight cabinet friction, but a beautiful specimen of this rare date.

2074 1800 Variety with die breaks on upper and lower left edge of reverse. Uncirculated, with frosty mint surface. Not a rarity, but very scarce so choice. It is well to comment here that these lesser scarce Half-Eagles of the early dates are now available at what I think most advantageous prices. The supply of them is very limited. And we all know what the present gold status is doing and will do to the increase in value of our early gold, so in my opinion, the investment in these beautiful early U. S. gold coins will certainly prove a most gratifying source of possession and very likely a profitable investment.

2075 1802 over '01, as all are of this date. Practically uncirculated, but the obverse surface seems to have been slightly polished; the reverse has considerable mint luster. A beautiful specimen just the same.

2076 1803 over '02, as all are. Beautiful uncirculated. Just about as perfect as the day it was minted, with even bright frosty mint surface. Very scarce so choice.

2077 1804 Large double-cut 8 in date. Uncirculated, with frosty mint surface on obverse and bright surface, with a touch of proof, on reverse. The field on obverse shows slight cabinet friction.

2078 1804 Small date. Faint die break across obverse and one on reverse. Beautiful sharp uncirculated specimen; unusually wide border for this coin. A handsome piece and quite scarce so choice. Record up to $50.00, made several years ago.

2079 1805 The highest portions show slight touch of circulation, but the coin as a whole is a semi-proof.

2080 1806 Round-top 6. Uncirculated, with frosty mint surface; slight cabinet friction on highest portions.

2081 1807 Type as last, bust to right. Extremely fine, with considerable mint luster.

2082 1807 Second type, bust to left. Uncirculated, with frosty mint surface. Quite rare so choice.

2083 1808 Perfect date. Just a shade from uncirculated, but with considerable frosty mint surface.

2084 1809 Very fine; frosty mint surface.

2085 1810 Large date. About uncirculated, with frosty mint luster.

2086 1811 Small 5 on reverse. Extremely fine, with considerable luster.

2087 1812 Beautiful uncirculated specimen, with frosty mint surface; every star filled. Quite rare so choice.

2088 1813 New type. This type prevailed to 1834 and included all the great rarities. Nearly uncirculated, with the slightest cabinet friction. Scarce so choice.

Lot No.

2089 1814 Uncirculated, with full frosty mint luster; sharp. Rare, especially so choice. This coin has an auction record of $75.00 made in 1926, fifteen years ago, in the same year it was priced at $150.00. A far more rare coin than is generally recognized.

2090 1818 Beautiful uncirculated specimen. A pin-point nick above fourth star on right. Sharp, with full mint luster. Very rare so choice. This coin back in 1926 sold up to $75.00. Of course, please remember that this is a beautiful uncirculated specimen.

Lot No. 2091

The EXCEEDINGLY RARE 1819 HALF-EAGLE
ONE of OUR REALLY GREAT RARITIES!

1819 $5.00 Gold. Obverse; head of Liberty facing left, band on cap inscribed in incused or stamped-in letters, LIBERTY. Date below; thirteen six-pointed stars. Reverse; eagle with wings outstretched, head turned to eagle's right, an olive sprig in right talon and three arrows in left. 5 D. below. Scroll above eagle inscribed E PLURIBUS UNUM in incused letters. Borders and edge milled. Extremely fine, with considerable original mint luster. This specimen is from the celebrated Matthew A. Stickney Collection, the most famous and most complete Collection of American coins ever formed and ever sold. (It was sold by Henry Chapman in June, 1907. Original invoice accompanies the coin.)

The second rarest U. S. Half-Eagle, next in rarity to the matchless 1822, has always been considered to be the 1815 Half-Eagle. The 1819 has always been recognized as the third rarest of the entire series. But from the records of the number of specimens offered in the past fifty years, I believe that while the 1815 is and should be rated as the second rarest Half-Eagle, but from the same records it is certainly evident that the 1819 is,—if not as rare as the 1815,—is most certainly a mighty close second.

From 1890 to the present time there were offered at auction three specimens of the 1815 Half-Eagle. The first in the Harlan P. Smith Sale, where the coin brought $1,050.00. The next specimen sold was in the following year, 1907, in the Matthew A. Stickney Sale, where the coin sold for $2,000.00. The third specimen was sold in my Sale of the famous James Ten Eyck Collection, in 1922, where the 1815 Half-Eagle brought $2,200.00 plus 5%

Since my Sale of the Ten Eyck Collection, in May, 1922, not another 1815 Half-Eagle has been offered at auction. However, I have handled and sold three specimens at private sale during this period, although two of these specimens were those previously sold at auction and were not newly discovered or additional specimens.

THE RECORD OF THE 1819 HALF-EAGLE

During the same period of numismatic history, from 1890 to the present time, more than fifty years, there were **only four specimens** of the 1819 Half-Eagle offered at auction—just one more than were offered of the 1815. The first 1819 Half-Eagle to have been offered in this century, was the one in the Harlan P. Smith Sale, May, 1906. It was cataloged by S. H. & H. Chapman as follows:

> "Extremely fine. No specimen having been offered since 1890. We have had in our thirty years of business but two pass through our hands, the other in fine condition."

The second 1819 Half-Eagle to be offered since 1890 was in the following year, 1907, in the Matthew A. Stickney Collection, where Mr. Dunham purchased the specimen here offered. The Stickney Collection has allways been regarded, and rightly so, as the most celebrated American Numismatic Collection ever formed and to have been offered at auction. As Mr. Stickney discontinued his collecting about 1854, this 1819 Half-Eagle has changed ownership only once in over eighty-six years!

The third 1819 Half-Eagle appeared in 1912, in the Sale of the George H. Earle Collection, sold in June, 1912. It was described as follows:

> "had a ring on edge which had been removed; dent on edge. Excessively rare."

Yet even this damaged coin, 'way back in 1912, more than a quarter of a century ago, realized the then large sum of $530.00.

In 1914, I sold at private sale an 1819 Half-Eagle to Mr. Waldo Newcomer. This was the **only specimen** I have ever handled privately. The only other specimen that has ever passed through my hands was in the Ten Eyck Sale, in 1922, where it sold for $900.00 plus 5 per cent commission, and later the same coin was offered privately for $3,000.00. In my Catalog of the Ten Eyck Collection, I described the 1819 Half-Eagle as follows:

> "If we stop to consider the number known, I believe that it is nearly as rare as the 1815."

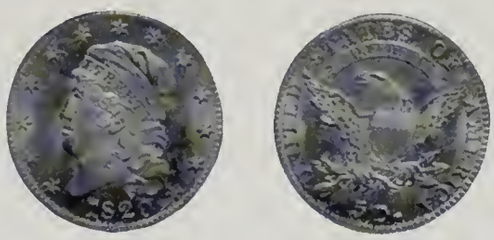
This specimen, as previously mentioned, sold for $900.00 plus 5 per cent. This price was more than double the amount the previous specimen sold for just ten years before.

Since my Sale of the Ten Eyck Collection in 1922, I can find no record of a single other specimen having been offered at auction. Although I have had four 1815 Half-Eagles pass through my hands during the same period, handling one of them twice, making a total of six sales of 1815 Half-Eagles, I have had in my forty years in the numismatic business, but two 1819 Half-Eagles.

So, from the above exhaustive records, it can very easily be noted that the 1819 Half-Eagle is just about on a par in rarity and value with the 1815 Half-Eagle, which has an auction record of well over $2,200.00, and a record at private sale of over $4,000.00! Then, truly, the 1819 Half-Eagle can certainly be classed among the really great American numismatic rarities.

Lot No.

2092 1820 Variety with square-base 2 in date and wide 5 D. on reverse. Just a shade from uncirculated, with frosty mint surface. I doubt if the coin has ever been in circulation. The very slight wear it shows is due to cabinet friction. Originally purchased as uncirculated. Very rare. Last record of $105.00. Listed at $150.00.



2093 1820 Variety with curled-base 2 in date and close 5 D. on reverse. Beautiful uncirculated specimen with every star filled and bright mint luster. The obverse has semi-proof surface. Extremely rare, especially so choice. It has a record made twenty years ago of $125.00.

2094 **1821** One of the real great rarities of this series and one which has not been sufficiently appreciated. This specimen is beautiful, uncirculated, sharp, with full mint luster. The highest portions show the very slightest cabinet friction. It is brilliant with almost proof-like surface. Excessively rare. I doubt if as many as twelve specimens are known in collections. As far back as fifteen years ago this coin was priced at $500.00. Recent record of $425.00 for a specimen not nearly as choice. A most beautiful and thrilling coin to own.

1899

THE HISTORY, PEDIGREE AND RARITY OF THIS GREAT COIN:

We have authenticated history of numismatics in this country for a period extending back to about 1817—one hundred and twenty-four (124) years (as shown here later). And during all these years—extending over a period covering more than a century—there is only one record of this great coin having ever been offered and sold. This was in 1906, when this identical coin was sold in the Harlan P. Smith Sale. It was bought by William Forrester Dunham, in whose collection it remained until this time, a period of thirty-five years.

The Sale, as mentioned before, was that of the famous Harlan P. Smith Collection. It was cataloged and sold by the then long established firm of Numismatists, S. H. & H. Chapman, in Philadelphia. The coin was cataloged as Lot No. 210 and described as follows:

> "—of highest rarity, surpassing all other dates of this denomination. We know of but three specimens: U. S. Mint, Virgil M. Brand, and the present example was in the Parmelee Sale, 1890, where it was loaned by H. P. Smith, to take the place of Parmelee's specimen which has proved to be counterfeit."

The price paid by Mr. Dunham was $2,165.00, which was, up to that time, the highest price a single United States coin ever sold for! We must remember also that this was thirty-five years ago!

A number of years ago, while in Chicago, Mr. Dunham told me that some year or two after his coming into possession of this great coin, a representative or agent of the late J. Pierrepont Morgan, called on him and urged him to part with the coin, finally offering him Thirty-Five Thousand Dollars ($35,000.00) cash for it. This incident was later, and just recently, verified to me by Mr. Henri Ripstra of Chicago (immediate Past President of the American Numismatic Association), who informs me that he was present in Mr. Dunham's office when the offer was made by the representative of Mr. Morgan.

Another most interesting incident relating to the great rarity of the 1822 Half-Eagle is that of a letter written by the great Numismatist, Matthew A. Stickney, Salem, Massachusetts, bringing out the fact that through all of the recorded numismatic history of the United States, extending over a period of One Hundred and Twenty-four years, not a single other specimen of the 1822 Half-Eagle has been offered for sale.

In the catalog of the great Stickney Collection, sold in June, 1907, there is a letter published of Mr. Stickney, written July 2, 1867. The letter refers mainly to his 1804 Dollar. But there is one statement in the letter which greatly emphasizes the rarity of the 1822 Half-Eagle. The paragraph referred to reads as follows:

> "I have been for nearly fifty years a systematic collector of coins; and for a very long period, almost without a competitor; and very many of the rare coins which now enrich other cabinets were, by great solicitation, obtained from me. My facilities for collecting coins were remarkably good, through the friendship of Beebee & Parshell's Bullion Exchange, 22½ Wall St., N. Y. I received from them, quarterly, from 1843, rare coins I was in search of, at par; and under all the changes of the firm, they continued to favor me till 1854, when, in consequence of ill health, I gave up my business."

From the above statement it will be noted that Mr. Stickney began collecting coins in 1817. For fifty years—one half century—he was, in his own words, a "systematic collector of coins," and again using his own words, his "facilities for collecting coins were remarkably good." His collection, when sold in 1907, realized the then highest sum ever before realized for a coin collection in this country, that of $37,859.21. His collection contained such great rarities as the Brasher Doubloon, which brought $6,200.00—a new high record for a single American coin! The Collection also contained all of the rarest American Colonial coins; all United States gold, silver and copper coins of the Philadelphia Mint, including all Half-Eagles, with the ONLY exception of the 1822 Half-Eagle. In all of his fifty years of collecting, when, in his own words, he was "almost without a competitor," he did not have a single opportunity of securing the 1822 Half-Eagle.

Another bit of important evidence relative to the great rarity of the 1822 Half-Eagle is found in the book published by the famous dealer, Charles Steigerwalt of Lancaster, Pennsylvania. This book was published in 1884—fifty-seven years ago. In listing the United States $5.00 gold pieces, where the 1822 is mentioned, he states very definitely—**"but two known."** Referring, of course, to the specimen here offered, which was then in the Smith Collection and the other in the United States Mint Collection, which, of course, is out of the market for all time.

And during the later years, after Mr. Stickney discontinued his collecting, there were many other great collectors with unlimited funds, such as Parmelee, Mills, Zabriskie, Earle, Jenks, and many others, whose Collections included all of the great American rarities, but none of them had an opportunity of acquiring an 1822 Half-Eagle.

Then in still later years, or we might say modern times, we had other great collectors, such as Mr. Granberg of Wisconsin, to whom the price of a coin mattered not if he lacked it in his Collection; William H. Woodin (late secretary of the Treasury of the United States), who specialized and formed the most complete collection of U. S. Half-Eagles ever brought together; Col. E. H. R. Green, whose numismatic holdings totaled at least Two Million Dollars or more; Mr. Waldo Newcomer, whose Numismatic Collection cost him nearly a Million Dollars, and several other wealthy and advanced collectors. While these gentlemen possessed everything else in United States rarities they ALL lacked the 1822 Half-Eagle.

In fact, back in 1925, when the late Col. E. H. R. Green was actively interested in completing his Numismatic Collection of the United States coinage, he was willing to buy the entire Dunham Collection and pay nearly One Hundred Thousand Dollars ($100,000.00), in order just to acquire the 1822 Half-Eagle But Mr. Dunham refused to part with any of his coins, as they were "his life," as he expressed it to me at the time.

The above are all recorded and proven facts which do not require much imagination to realize the really great rarity and value of this pedigreed 1822 Half-Eagle! The only authenticated specimen ever to have been offered, and having been offered for sale at auction only once during the entire period of more than a century of American Numismatic History.

The pride of its possession and ownership cannot be over-estimated. The great enhancement in value which this rarity will influence the values of other coins in a Collection is untold and inestimable. This great coin has always been and always will be the fondest dream of ownership of American Collectors and a dream which may be realized not only once in a lifetime—but once in several lifetimes!

My handling of the 1822 Half-Eagle and the 1852 Original Half-Cent, for the first time in my entire numismatic career, is a source of great pride and much satisfaction to me, for the reason that in handling these two great coins, I believe that I have achieved a record never before enjoyed by any Numismatic Dealer, past or present, in that I have now handled each and every coin, of every date, of every principal rare variety, and of every Branch Mint, issued by the United States!

2096 **1823** Magnificent brilliant semi-proof with the exception of two light scratches on obverse and a pin-point nick, but even with these very slight imperfections which hardly are noticeable, the coin is a gem and worthy of its highest record. It is listed at $125.00 in very fine condition. There is at least 100% increase in value between a very fine and semi-proof. A similar specimen in my Sale of the Hale Collection brought $107.50, but as far back as fifteen years ago, the coin was priced at $250.00.

2097 **1824** Practically uncirculated with every star filled and bold with full mint luster. Excessively rare. I doubt if as many as ten or twelve specimens are known. Listed at $500.00 in very fine condition, and in this remarkable condition, is worth at least double. Has a record of $340.00 made twenty years ago. Certainly worth its full listed price.

2098 **1825 over '21.** Practically uncirculated, mint luster. Can really be classed as uncirculated. This is not a particularly excessive rarity, but still a coin that is far more rare than is generally recognized, especially in choice condition. The great Hale Collection had a specimen which was holed. The Ten Eyck Collection had one in only very fine condition. And I have before me records of about ten sales of this coin and only one of which out of the entire ten is equal to the condition of this specimen. While there have been more offered of this coin than that of the other great rarities, such as the 1815, 1819, 1828, 1829 and, of course, the matchless 1822, but I feel confident that not more than about ten or twelve specimens are known of the 1825 Half-Eagle, as was stated authoritatively by S. H. & H. Chapman in their sale catalog of the celebrated Stickney Collection. This coin, therefore, is certainly a much under-rated coin. I consider it a real bargain at its present price level of $250.00 to $350.00.

Lot No.

2099 1826 Beautiful sharp uncirculated specimen with every star filled and full mint luster. Just as perfect as the day it was minted. Excessively rare. Auction record as far back as 1926, fourteen years ago, of $380.00. I notice where a specimen was offered at private sale about the same time, in only extremely fine condition, for $500.00. The last record is that of the one in my Sale of the Hale Collection, where it brought $240.00 which I consider a great bargain.

Lot No. 2100

The Excessively Rare Half-Eagle of 1827

1827 $5.00 Gold. Beautiful sharp uncirculated specimen, just the very slightest cabinet friction on highest portions, but with full frosty mint luster, with every star filled and perfectly centered and struck. At most, not more than ten specimens known. The late Henry Chapman in his great Sale of the Stickney Collection, stated that only about eight were known. According to records of the number of specimens offered at auction and at private sale, this coin is on a par in rarity with the 1815 and 1819 Half-Eagles. I note in my records that in 1926, fifteen years ago, a specimen described as extremely fine with nick on edge, was priced at $850.00. In my opinion, this coin should easily rate in the four-figure mark.

Lot No. 2101

The Excessively Rare Half-Eagle of 1828

1828 $5.00 Gold. Perfect date variety. Brilliant semi-proof, sharp, with raised borders and just about equal to a perfect brilliant proof.

There has been so much lime-light directed on the great rarity of the 1815, 1819, and 1822 Half-Eagles—while justly so—that the excessive rarity of the 1828 Half-Eagle and a few of the other extremely rare dates of the Half-Eagles of the 1820's has been overlooked.

The record of the 1828 Half-Eagle is just as impressive and proves it to be just about as rare as the 1819 and a close neighbor in rarity and value to the 1815!

The first specimen of the 1828 Half-Eagle offered in this century was in the Harlan P. Smith Sale in 1906, where the over-date variety, brought $210.00. And in the same Sale, a perfect date specimen, the same as here offered, sold for $240.00. In the Stickney Sale, in 1907, just one year later, we find a specimen of the over-date variety, sold for $360.00, an advance or increase in value of more than 66 per cent in one year.

The next great Collection sold was the George H. Earle, in 1912. Although this Collection realized the huge sum (especially at that time, twenty-nine years ago) of $55,821.63, it did not have a single specimen of the 1828 Half-Eagle.

From 1907 to 1922, a period of fifteen years, I can find no record of sale of an 1828 $5.00 Gold Piece. Then in my Sale of the James Ten Eyck Collection, in 1922, an extremely fine specimen brought $680.00 plus 5 per cent commission, or a total of $714.00. An increase of nearly 100 per cent in value over its previous record.

From 1922 down to the present time, there is only one record of an over-date variety, which brought $960.00, but I can find no record in any of the important Sales held during these past nineteen years where a single specimen of the perfect date 1828 Half-Eagle has been offered. Nor do I recall, nor do I have any record of having sold a specimen at private sale with the only exception of the one in the Waldo Newcomer Collection, nine years ago, which incidentally was one of the specimens previously sold at auction in the Sales above mentioned. No new specimens having come to light.

Therefore, from the above records, it can readily be noted that during the past fifty years there were just as few, if not fewer, 1828 Half-Eagles offered than were offered of the 1815 and of the 1819. I feel now, as I have always felt, regarding the excessive rarity of the 1828 Half-Eagle, that it is just as rare and just as difficult to obtain and is as seldom offered and certainly about on a par in value with the 1815 and 1819 Half-Eagles.

Lot No. 2102

THE EXCESSIVELY RARE U. S. HALF-EAGLE OF 1829

SECOND TYPE, SMALLER PLANCHET AND DATE—THE RAREST VARIETY

1829 $5.00 Gold. The exceedingly rare variety with small date and small letters on reverse. The edge is beaded instead of serrated as in previous years. The entire coin is of a trifle smaller planchet, being of the same size as are the Half-Eagles of 1830 to 1834. Uncirculated. The obverse has a frosty mint surface. The reverse has a brilliant semi-proof surface, almost equal to a proof. The highest portions show just the barest touch of circulation. Of excessive rarity. In fact one of the rarest of all of our gold coins.

The record of this beautiful and exceedingly rare Half-Eagle is even more impressive than that of the exceedingly rare Half-Eagles of 1815, 1819 and 1828. The specimen here offered is the identical coin sold in the celebrated Harlan P. Smith Collection, May, 1906, Lot 219. This coin was purchased by Mr. Dunham in whose collection it remained these thirty-five years. It was cataloged by the Chapmans as follows:

> "1829 Small date. Small stars. Border of beads instead of surratures. Reverse; small letters, small planchet. From the Ely Sale, (Reverend Foster Ely, November, 1888)—Of Excessive rarity."

In the Reverend Ely Sale, the coin was cataloged as follows:

> "1829 New Type. Date, stars and legend smaller. The third in order of rarities in the Half-Eagles following 1822 and 1815. One of the four known."

In June of 1912, when the Earle Collection was offered, a specimen of this rarity brought $400.00. From that date until the Ten Eyck Collection came on the market in 1922, a period of fifteen years, not another specimen was offered. In the Ten Eyck Sale, which I had the pleasure of handling, I commented on the 1829 Half-Eagle as follows:

> "1829 Extremely rare in any condition, but in this beautiful state I consider it almost priceless. Record of $400.00 in the Earle Sale, in 1912. Would not surprise me to see this coin reach the four-figure mark."

My prophesy came true. The coin realized $1,275.00 plus 5 per cent commission, or a total of $1,338.75. Since the Ten Eyck Sale, in 1922, nineteen years ago, I know of no record of sale at auction, and only one

record at private sale, the specimen in the Newcomer Collection, which was the identical coin formerly mentioned in the preceding records. In all of my forty years of numismatic business, although I have made four sales of 1815 Half-Eagles, and handled three of the 1819, and many other great rarities, including three Brasher Doubloons; in fact, as stated elsewhere in this Catalog, I have now had the pleasure and satisfaction of having had pass through my hands each and every date, mint mark, and principal variety of every coin minted for circulation by all of the United States Mints. But during all these years, this is only the third specimen of the 1829 Half-Eagle that I have ever handled. It is really the second, as the other two sales were of the same coin.

Surely, if we consider all of the important facts and records pertaining to the excessive rarity of the 1829 Half-Eagle, small date variety, it cannot by any stretch of our imagination be placed on a lesser degree of rarity and value than that of the 1815 and 1819 Half-Eagles!

Lot No.

2103 1830 $5.00 Gold. Variety with small 5 D. Just a shade from uncirculated, in fact the coin is really uncirculated, as it has beautiful bright mint luster and only the highest portions show slight cabinet friction. A very small light scratch between third and fourth star on left. Brilliant semi-proof surface, especially on reverse. Extremely rare. Not in the Hale Collection. Old record of $200.00.

2104 **1831** Fine, strictly so; in fact it can be classed as very fine for the coin. Very rare. Listed at $250.00 in this condition.

Lot No. 2105

THE EXCESSIVELY RARE HALF-EAGLE OF 1832

1832 Thirteen star variety. Magnificent brilliant semi-proof; sharp, with raised borders, bordering on wire edge on obverse. Truly a gem of this great rarity. Not more than six or eight known. Not in the Hale Collection. And I find that even the great Stickney Collection had a plugged specimen. Mr. Chapman in cataloging the Stickney coin stated that only about five are known. I can find no record of a specimen having been offered at auction since my Sale of the Ten Eyck Collection, in 1922. This coin catalogs in very fine condition for $600.00. It is certainly worth well into the four-figure mark and compares most favorably in rarity with the 1815 and 1819 Half-Eagles.

Lot No. 2106

1833 Perfect die variety. About uncirculated with brilliant semi-proof surface. Extremely rare; far more so than its listed price of $200.00 for a very fine specimen would signify, especially in this remarkably choice condition. I doubt if more than fifteen or twenty specimens exist, especially in this choice condition.

2141 1864 Just a shade from uncirculated, with considerable luster. Very rare. Listed at $50.00.

2142 1865 Brilliant uncirculated with proof surface. It appears to me that the coin was originally struck as a proof, as the edges are sharp. Only 1295 struck. Listed at $60.00 in uncirculated and $125.00 in proof. Very rare and valuable.

2143 1866 First year with motto. Perfect brilliant proof; wire edge. Excessively rare in this remarkable condition. About the only record I can find is the one in the Smith Sale, thirty-five years ago, where a proof specimen, not a perfect brilliant proof, sold for $25.00. The coin is now listed at $75.00 and is certainly worth it, as I doubt if as many as a dozen proofs exist.

2144 1867 Extremely fine; traces of original mint surface.

2145 1868 Extremely fine; just a shade from uncirculated, with considerable bright surface. Listed at $35.00 in uncirculated.

Lot No. 2153

The Excessively Rare Five-Dollar Gold of 1875 in Brilliant Proof

1875 $5.00 Gold. Perfect brilliant proof, with complete wire edge. Just as perfect as the day it was minted. This gem and great rarity is from the complete proof set purchased by Mr. Dunham in 1906. In all, there were only 220 specimens coined, of which number only an infinitesimal number are now known in proof. I doubt if ten or twelve proofs are known. Of excessive rarity. Its listed price of $250.00 is more or less of a joke. The coin is worth more than double that amount.

2154 1876 Carson City Mint. Brilliant uncirculated with highest portions showing slightest cabinet friction. Proof surface. Listed at $25.00 in only very fine condition.

2155 1877 Carson City Mint. Extremely fine, with considerable luster. Very scarce, especially so choice.

Lot No. 2166

The 1887 Five-Dollar Gold in Perfect Brilliant Proof Condition

1887 $5.00 Gold. Perfect brilliant proof. Only 87 specimens struck in all. Very likely less than half that number now exist, as those which come on the market are invariably coins that have been previously sold in other collections. I know of one specimen which sold at private sale for $500.00 some eleven years ago. The last record in my Hale Sale, $235.00. This is as beautiful a specimen of this rarity as I have ever seen. It has some wire edge on obverse. One of our really rare Half-Eagles.

Lot No.

2167 1888 Perfect brilliant proof, with wire edge. Very rare in this remarkable condition. Listed at $30.00 and seldom obtainable. Not in the Hale Collection and lacking in many other important collections.

2168 1889 Struck in yellow gold. Perfect brilliant proof with complete wire edge on obverse. A gem. Limited coinage, and certainly very limited in proof. Catalogs at $50.00.

2169 1890 **Brilliant proof.** Very rare. Listed at $60.00 and certainly worth it, as but a very limited number of proofs were struck in these years.

2170 1891 Struck in yellow gold. **Perfect brilliant proof** with raised borders. Rare.

2171 1892 **Perfect brilliant proof,** sharp, with partly wire edge. Very rare.

2172 1893 **Perfect brilliant proof.** This and the other brilliant proofs are just as perfect as the day they were minted. Their rarity has not been appreciated. Listed at $30.00. Seldom offered.

2173 1894 Struck in yellow gold. **Perfect brilliant proof,** with sharp wire edge. Very slightest, hardly noticeable, abrasion in upper obverse field to left of Liberty. A gem.

2174 1895 Brilliant semi-proof. Originally purchased as a perfect proof and is not far from it.

2175 1896 Yellow gold. **Perfect brilliant proof** with raised borders and partly wire edge.

2176 1897 Yellow gold. **Perfect brilliant proof,** with wire edge.

2177 1898 Uncirculated, frosty mint surface.

2179 1900 **Brilliant proof.** A very light spot on lower right reverse.

2180 1901 Brilliant uncirculated with proof surface on obverse.

2181 1902 **Beautiful brilliant proof.** A very tiny spot on neck of Liberty, hardly noticeable and does not affect the appearance or value of the coin. Raised borders with wire edge.

Lot No.

2182 1903 **Perfect brilliant proof.**

2183 1904 **Perfect brilliant proof.** Rare so choice. A gem.

2185 1906 **Perfect brilliant proof.**

2186 1907 **Perfect brilliant proof.** Quite rare so choice. An uncirculated specimen in my Hale Sale brought $12.75. This should be worth at least double, if not more.

2187 1908 The new type with Indian head. Reverse, standing eagle. The entire design incused or stamped in. Sandblast proof. Rare.

2188 1909 Proof. The new style proof, the surface being between a sandblast and the old style brilliant proofs. Very scarce in proof.

2189 1910 Perfect proof. Very scarce.

2190 1911 Sandblast proof, perfect, with partly wire edge. Rare.

2191 1912 Sandblast proof. Very scarce.

1795 Variety with top of 5 not touching bust and small die break on reverse between F and first A in AMERICA. Rare and valuable so choice.

Lot No.

2197 1796 Practically uncirculated, with almost full brilliant semi-proof surface. The highest portions of eagle show slight wear. Very rare, especially so choice. Listed at $100.00 in only very fine condition.

2198 1797 Obverse as last. Reverse, heraldic eagle. Variety with so-called large stars on obverse. Practically uncirculated with frosty mint surface. Faint die break between S and O on reverse. Scarce so choice.

2199 1797 So-called small stars on obverse. Perfect die. About uncirculated with brilliant mint luster. The reverse is a semi-proof.

Lot No. 2200

1798 over '97. Variety with four stars to right and nine stars to left of bust. Light planchet marks on obverse to left of bust and few minute nicks on cheek, due from having been handled with other coins. The highest portion of Liberty cap shows just the slightest touch of cabinet friction, but otherwise sharp and brilliant; almost equal to a proof. One of the most beautiful specimens of this rarity I have ever seen. Far superior to the specimen which brought $210.00 in my Hale Sale.

2201 1799 Variety with small stars on obverse. Struck in light yellow gold. Magnificent uncirculated specimen with full brilliant mint luster. The reverse is almost equal to a proof; sharp and perfect in every respect. This is not a rare date, but I consider it extremely rare in this remarkably choice condition. Have never seen its equal.

2202 1799 Variety with large stars. Extremely fine. Struck in reddish gold.

2203 1800 Uncirculated, with brilliant mint luster. Die break connecting top of LIBERTY. Another ordinary date in very rare condition. Almost like a proof.

2204 1801 Beautiful uncirculated specimen with frosty mint surface. Just about as perfect as the day it was minted, with every star bold. This is probably the least rare date of the early Eagles, but I consider it of considerable rarity so perfect. Seldom equalled.

2205 1803 Very fine. Free from any nicks or dents; above the average. Scarce.

2206 **1804** Extremely fine, bold impression; perfectly centered. Far above average for this rarity. Listed at $100.00 in only very fine condition.

2207 1838 Very fine. Rare. Listed at $60.00.

2209 1840 Very fine. Very scarce date.

2210 1841 Bright uncirculated, with full mint luster and some proof surface on reverse. Extremely rare so choice. There is just as much difference in value of a fine 1841 Eagle and a brilliant uncirculated one, such as this, as there is between a fine 1841 Cent and a proof Cent of the same year. Of great rarity in this remarkable condition.

2211 1842 Large date. Very fine.

2212 1843 Extremely fine, with some luster.

2233 1863 San Francisco Mint. Bold impression. Extremely fine.

2235 1865 San Francisco Mint. Unusual edge on left; raised and almost like a wire edge. Very fine.

2236 1866 First year with motto. **Perfect brilliant proof.** A very light hardly noticeable pin-point nick in field to left of head. Only mentioned here on account of the importance of the coin. Extremely rare in proof. Limited coinage to begin with, and of course, we know in these years that very few proofs were struck. Worth a great deal more than its listed price of $75.00.

The Excessively Rare 1875 Ten-Dollar Gold Piece In Brilliant Proof Condition

1875 $10.00 Gold. Perfect brilliant proof. From the proof set Mr. Dunham purchased in 1906. Excessively rare. This date Eagle, of the Philadelphia Mint, has the distinction of having been coined of a lesser number than that of any other date. Only 120 pieces were minted. And if we take into account the infinitesimal number of them that have come on the market since the date of its issue, I feel confident that this coin, especially in brilliant proof condition, is as rare as the $3.00 Gold Piece of this date. I find that some of the greatest Collections ever offered in this country did not possess a brilliant proof specimen of this coin. Even such a Collection as the Newcomer, which cost nearly One Million Dollars, only had an extremely fine specimen. The great Ten Eyck Collection did not have one in any condition, nor did the great Earle Sale, which realized over $50,000.00 in 1912, nearly thirty years ago. I consider this coin, in proof condition, by far the rarest of all $10.00 Gold Pieces, and certainly one of the greatest of all rarities of the American Gold Series. Considering its rarity, I do not hestitate to state that it is well worth a price in the four-figure mark.

2246 1876 San Francisco Mint. Very fine.
2247 1877 S. Mint. Very fine.
2248 1879 Very fine.
2249 1880 **Perfect brilliant proof.** Very rare in proof.
2250 1881 **Perfect brilliant proof,** with sharp wire edge.
2251 1882 **Perfect brilliant proof.**
2252 1883 **Perfect brilliant proof.** Very rare. These brilliant proof Eagles are far more rare than their listed catalog prices would signify, as but very few were struck in proof to begin with, and certainly a far fewer number now exist.

2278 1907 San Francisco Mint. Old type. Very fine. No official record of any having been coined. Record up to $50.00, but since then several have been discovered.
2279 1907 The new type with Indian head. Reverse, standing eagle. The rare variety with wire edge and periods after each word. Only 500 coined. Perfect uncirculated specimen with frosty mint luster. Rare. At one time sold up to $75.00.

U. S. DOUBLE EAGLES or TWENTY-DOLLAR GOLD PIECES

Coinage began in 1849, in which year only one specimen was minted. In 1850 the Double Eagles were struck for general circulation and this continued till 1933 with the exception of 1917, '18 and '19. They were coined at the New Orleans Mint from 1850 to 1861 and in 1879. At the San Francisco Mint from 1854 to 1916 inclusive, 1920, '22, '25 to '27 and 1930. At the Denver Mint from 1906 to 1914 inclusive, and from 1923 to 1927, and in 1931. At the Carson City Mint from 1870 to 1879 inclusive; from 1882 to 1885, and 1889 to 1893 inclusive.

(Bids for less than $33.00 will not be considered for any Double-Eagle)

2291 1850 First issue for general circulation. Uncirculated, with nice even frosty mint surface. Very scarce so choice and in much demand. In my Sale of the Hale Collection I received more than twenty bids for the specimen in that Sale, which brought over $50.00.

2292 1851 Very fine.

2293 1852 New Orleans Mint. Brilliant uncirculated with surface slightly rubbed as the result of having been handled with other coins. The reverse has considerable semi-proof surface, about equal to a proof. Rare so choice.

2294 1853 Very fine.

2295 1854 Uncirculated, with full frosty mint luster. Just the slightest evidence of having been handled with other coins. Very scarce so choice.

2296 1855 San Francisco Mint. Very fine.

2297 1856 S. Mint. Very fine.

2298 1857 San Francisco Mint. Practically uncirculated, with bright mint luster. Rare so choice.

2299 1858 San Francisco Mint. Nearly uncirculated, with almost full mint luster.

2300 1859 New Orleans Mint. Extremely fine with much of mint luster. Very rare. Listed at $75.00 in very fine condition.

2301 1860 Fine to very fine.

2302 1861 New Orleans Mint. Extremely fine, with considerable mint luster. Rare. Recent record of $52.00.

2303 1861 San Francisco Mint. Very fine, sharp.

2304 1862 San Francisco Mint. About uncirculated with frosty mint surface. Though not rare, but very scarce so choice.

Lot No. 2305

1863 Double Eagle in Brilliant Proof

1863 $20.00 Gold. **Perfect brilliant proof.** Excessively rare. I can find no record of sale with the exception of a proof set in the Earle sale, in 1912. Although a number of fine gold collections have been offered in recent years, I can find no record of a brilliant proof specimen of this coin. I feel confident that there were no more of the Double Eagles struck in proof than there were of the Quarter Eagles, of which only thirty specimens were minted. Excessively rare and far more valuable than its listed price of $200.00 would signify.

Lot No.

2306 1864 San Francisco Mint. Very fine.

2307 1865 Very fine; sharp. Scarce date.

2308 1866 Yellow gold. **Perfect brilliant proof.** Excessively rare. We can readily understand that but very few collectors of proof gold were in existence at that time. The proof coins were struck on order only. I doubt very much if as many as fifteen or twenty specimens in proof exist today. Listed at $200.00 and certainly worth it.

2309 1867 S. Mint. Very fine.

2310 1868 S. Mint. Fine.

2311 1869 S. Mint. Extremely fine.

2312 1870 S. Mint. About uncirculated, with almost full mint luster.

2313 1871 S. Mint. Very fine.

2314 1872 Beautiful uncirculated specimen, just about as perfect as the day it was minted, with full mint luster. The obverse field to right of head shows the very slightest evidence of having been handled with other coins, but the coin is as choice as any collector would possibly want next to a proof.

2315 1873 Just a shade from uncirculated, but with full frosty mint luster. Nearly as choice as last.

2316 1874 Uncirculated, with frosty mint surface. Very scarce so choice.

Lot No. 2317

1875 Twenty-Dollar Gold in Brilliant Proof.

1875 $20.00 Gold. Magnificent perfect brilliant proof. From a proof set purchased by Mr. Dunham in 1906, thirty-five years ago. Excessively rare. I doubt if more than twenty proofs were struck. Even the great Newcomer Collection only possessed an extremely fine specimen. Of highest rarity and value. Worth at least double its listed price of $150.00.

2318 1876 **Beautiful perfect brilliant proof,** with partly wire edge. Extremely rare in proof. Seldom offered. Not in any of the great Collections offered in recent years.

2319 1877 San Francisco Mint. Fine.

2320 1878 **Carson City Mint.** Very fine. Very rare. Catalogs at $100.00.

2321 1878 San Francisco Mint. Very fine.

2322 1879 S. Mint. Fine.

Lot No.

2323 1880 **Beautiful perfect brilliant proof,** with partly wire edge. Extremely rare. Seldom offered. Listed at $150.00 and certainly worth it.

2324 1881 **Perfect brilliant proof,** with wire edge. Extremely rare and valuable. Limited coinage to begin with, and of course, the number of proofs struck were infinitesimal; probably not more than thirty or forty. Listed at $150.00, but with records at private sale for much more.

2325 **1882 Perfect brilliant proof.** A total of only 630 coins minted in all, of which number probably only thirty or forty proofs were struck, and undoubtedly less than that number now existing. Excessively rare in proof. Catalogs at $175.00, but sells for more at private sale when available.

2326 1883 San Francisco Mint. Fine to very fine.

2327 1884 Carson City Mint. Very fine. Very scarce. Lists at $50.00.

2328 1885 **Perfect brilliant proof.** A pin-point red spot on upper obverse edge and on reverse, not affecting the appearance nor value of the coin, as these little spots are hardly noticeable. Extremely rare so choice. Even the great Newcomer Collection did not possess it in proof. Only 828 minted, and of course, only an infinitesimal number in proof. Listed at $150.00 and worth at least double.

2329 **1886 Perfect brilliant proof.** Excessively rare in brilliant proof. Although most all other dates of the rare proof Double Eagles have appeared in Sales of great Collections, I can find no record of it having been offered in the great Sales of gold. I believe it to be as rare as almost any of the proof $20.00 Gold Pieces. Only 1106 minted in all. Far more valuable than its listed price of $150.00 would signify.

2330 **1887** $20.00 Gold. **Magnificent perfect brilliant proof.** A total of 121 specimens struck in all. This specimen is perfect in every respect. The head part is a beautiful light sandblast surface, giving the coin a magnificent appearance. Of excessive rarity and value. Listed at $250.00, but $500.00 would not be an excessive price for it.

2331 1888 **Perfect brilliant proof.** Very rare.

2332 1888 San Francisco Mint. **Brilliant semi-proof.** Not a rarity, but certainly rare so choice. Slightest evidence of having been handled with other coins. The coin is nearly equal to a proof.

2333 1889 **Perfect brilliant proof.** Extremely rare in this remarkable condition. Listed at $100.00 and retails for more when available.

Lot No.

2334 1890 **Perfect brilliant proof,** struck in yellow gold. Extremely rare. Listed at $100.00. Recent record in my Hale Sale, $84.00. These proofs are now in great demand, and as these large Collections come on the market at more rare intervals, the opportunity of the purchase of these coins is becoming as rare as are the coins. Please remember that these proofs in this Sale have not changed hands in about thirty-five years.

2335 1891 **Perfect brilliant proof,** with almost complete wire edge on obverse. Very rare and valuable.

2336 1892 **Perfect brilliant proof.** Very limited coinage. This coin is with sharp wire edge on obverse and just as perfect as the day it was minted. It is certainly worth its full listed price of $100.00.

2337 1893 Struck in yellow gold. **Perfect brilliant proof,** a gem. Just as rare and valuable as last.

2338 1894 **Perfect brilliant proof,** struck in yellow gold. Just as perfect and just as rare as last.

2339 1895 **Perfect brilliant proof,** partly wire edge. Very rare. These are all listed at $100.00 and more, and often sell for more at retail. So for the benefit of the collectors who insist on bidding on gold coins, especially proofs, on the basis of values of ten years or more ago, I wish to state that these readily bring not less than $75.00 at auction. It would be well to bear that in mind when bidding.

2340 1896 **Perfect brilliant proof,** with wire edge. The obverse bears a few hardly perceptible marks of having been handled with another coin. This is mentioned only due to the rarity of the coin.

2341 1897 **Perfect brilliant proof.** Very rare.

2342 1898 **Perfect brilliant proof.** Very rare.

2343 1899 **Perfect brilliant proof.** Very rare.

2344 1900 Struck in yellow gold. **Perfect brilliant proof.** Very rare.

2345 1901 **Perfect brilliant proof.** A gem. Very rare.

2346 1902 **Perfect brilliant proof,** with wire edge. Very rare.

2347 1903 **Perfect brilliant proof.** Very rare.

2348 1904 Struck in light yellow gold. **Magnificent perfect brilliant proof,** with wire edge. Very rare.

2349 1905 **Perfect brilliant proof.** Very rare.

2350 1906 **Perfect brilliant proof,** sharp wire edge. Very rare.

2351 1907 Last year of the Liberty head type. **Perfect brilliant proof.** In this condition at least ten times as rare as the St. Gauden's type.

2352 1907 The new St. Gauden's type, Liberty standing; reverse, flying eagle. Date in Roman numerals; wire edge. Uncirculated, with frosty mint surface. Very scarce; getting in demand again, especially in choice condition. Less than 12,000 pieces struck.

Lot No.

2353 1907 Type as last, but with bevelled edge. Uncirculated. Far more rare than the wire edge variety, especially in uncirculated condition.

2354 1907 Low relief, date in numerals. Beautiful uncirculated specimen. Just as perfect as the day it was minted. Mr. Dunham secured this and the following $20.00's direct from the mint.

2355 1908 Variety with motto. Perfect sandblast proof, with partly wire edge on reverse. Rare. Listed at $75.00 and readily retails for that amount.

2356 1909 Perfect proof, new style. Rare in proof. Catalogs at $75.00, as do all of the following proofs.

2357 1910 Perfect proof, partly wire edge. Rare in proof.

2358 1911 Sandblast proof. Rare.

2359 1912 Sandblast proof. Rare. For some reason this date seems to be more scarce and difficult to obtain than any of the other dates of this series.

2360 1913 Sandblast proof, with complete wire edge on reverse. Rare.

2361 1914 Sandblast proof, partly wire edge. Rare.

2362 1916 San Francisco Mint. Brilliant uncirculated. Scarce. Listed at $50.00.

2363 1927 Uncirculated. Very scarce. Listed at $60.00.

SCARCE PATTERNS FOR U. S. GOLD COINS

2364 1868 Pattern for $3.00 Gold Pieces. Regular dies but struck in aluminum. Proof, with wire edge. A-W 657, Rarity 13. Only four or five coined. Excessively rare. This coin cost $25.00 some fifteen years ago. In actual point of rarity, it is as rare as any $3.00 gold piece.

2365 1861 Pattern for $10.00 Gold Piece. Type of regular issue, but with motto, GOD OUR TRUST in plain field above eagle. A-W 340. Struck in copper, and bronzed. Uncirculated; sharp. Partly wire edge. Very scarce. Only about fifty coined. Record over $12.00.

2366 1862 Pattern for $10.00 Gold. Same type as last but with motto on scroll. Struck in copper. A-W 355. Uncirculated. Very scarce. Record over $11.00.

2367 1859 Beautiful Pattern for $20.00 Gold. Liberty seated; small shield and eagle. Reverse, value, legend and date in heavy wreath. The Paquet design. Struck in copper, but gilted. Listed by Adams-Woodin as Rarity 12, only about eight coined. But I hardly think it is as rare as listed. However, it is a beautiful coin and has sold at retail up to $20.00.

2368 1875 Pattern for $20.00 Gold. Regular type. Struck in copper. Proof; very slightly rubbed on obverse field, but brilliant olive surface with wire edge. A-W 1399, Rarity 13. Only about five coined. Last record $27.50, but in point of actual rarity, certainly worth a great deal more.

PRIVATE PIONEER AND TERRITORIAL GOLD COINS

These interesting and historical coins were issued mainly in the West and in the Carolinas and Georgias in the '30's. While these coins are not so-called "legal coinage," they were mainly issued by permission of the Government, and were readily accepted and passed current at a time when there was a pressing need for a medium of exchange with which to transact the business of the country. Such coinage is now prohibited.

While Mr. Dunham did not go in very extensively for the coins of this series, but the number here offered include one of the rarest and certainly the most beautiful coin of the entire issue—the Kellogg & Co. round Fifty-Dollar Gold Piece in brilliant proof. Also, the Wass Molitor 1852 $10.00 Small head variety, of which only two or three are known.

Lot No. 2369

THE BEAUTIFUL AND EXCEEDINGLY RARE KELLOGG & CO. FIFTY-DOLLAR GOLD PIECE

1855 $50.00 Gold. Beautiful and finely executed head of Liberty facing left, KELLOGG & CO. on diadem. The name of the engraver, F. Gruner, in very small letters, on trunction; date, 1855, below. Thirteen perfect six-pointed stars. Reverse, beautifully executed eagle supporting shield, plain ribbon in beak; on scroll above, 1809 GRS., 887 THOUS. Legend, SAN FRANCISCO CALIFORNIA FIFTY DOLLS. Round. Milled edge. **Brilliant proof,** with sharp brilliant impression. A very slight flake in planchet in field to left of head. This is typical of this great coin. Excessively rare. Only thirteen specimens known. This is the first specimen I have had to offer at auction since my Sale of the famous Judge Slack Collection, sixteen years ago. Only available when famous collections come on the market. The last specimen I have a record of is the one sold in the Dr. Lawrence Sale, in 1929, where it brought $2,150.00. The specimen in the Newcomer Collection, which I had the pleasure of handling, was sold privately for $2,500.00. It is by far the most beautiful of all Pioneer Gold Coins, and, of course, one of its greatest rarities.

In 1905, thirty-six years ago, the great collector, the late DeWitt Smith, of Lee, Mass., who specialized in Pioneer Gold coins, presented me with a list which he had prepared of the then owners of the Kellogg $50.00 Gold Coin. The list is here published with such changes as are known to me. This is of much value to the student of this historically interesting series:

No. 1.
No. 2. } Owned by members of the Kellogg family. However, one specimen was
No. 3. } sold at auction in New York a number of years ago. Its present owner is unknown to me.

No. 4. In the United States Mint Collection.

No. 5. Formerly owned by George Rice of Detroit, who later sold it to Mr. Virgil Brand of Chicago. (The specimen here offered.)

No. 6. Originally the Earle specimen, which I purchased and sold to Fred T. Huddart, who in turn sold it to Judge Slack, and in turn sold by me in his sale, May, 1925. Now in the Colonel Green Collection.

No. 7. The Zabriskie specimen, sold in 1909. Present owner unknown to me.

No. 8. The DeWitt Smith specimen; later in the Brand Collection.

No. 9. Mr. Granberg, Oshkosh, Wisc. (Am not certain whether Mr. Granberg still possesses the coin today.)

No. 10. In the Beck Estate, Pittsburgh.

No. 11. W. W. Kaufman, Marquette, Mich.

No. 12. Formerly in the Charles W. Cowell Collection of Denver; then to Waldo Newcomer of Baltimore.

No. 13. Originally in the Jenks' Collection, sold to Mr. Reuting, then to A. C. Nygren of San Francisco. Sold in his Sale, April, 1924. It was purchased by Henry Chapman. I believe that this coin was later purchased by Dr. Lawrence of New York, and when his collection was sold, in 1929, this coin brought $2,150.00. I'm not positive of its present ownership, although I think I know where it is.

The specimen here offered has been in one collection for about thirty years. It is only the fourth time that I have had the pleasure of handling this great coin in my more than forty years of numismatic experience, and it is really only the second specimen, as the others were handled by me more than once. It should bring as much and more than its former record.

$20.00 GOLD PIECES ISSUED BY KELLOGG & CO.

Lot No.

2370 1854 $20.00. Extremely fine; highest portions show few light nicks, but well struck, and far above the average for this coin. Catalogs and readily retails at $60.00.

2371 1855 $20.00. These coins are of the same type as the regular U. S. issue but have the name KELLOGG & CO. on diadem, and on reverse, SAN FRANCISCO CALIFORNIA. TWENTY D. This specimen is the variety with short arrowheads. Usual light nicks, but very fine.

2372 1855 $20.00. As last, but variety with long arrowheads. Free from any serious nicks or dents.

Lot No. 2373

THE RARE ROUND FIFTY-DOLLAR GOLD PIECE

1855 $50.00. Small head of Liberty, thirteen six-pointed stars; date below head. Reverse, 50 DOLLARS in wreath; 900 THOUS in small scroll above. Legend, SAN FRANCISCO CALIFORNIA. WASS MOLITOR & CO. Round; milled edge. Free from any serious nicks or dents on the edges. However, the surface of both obverse and reverse has been smoothed to take off the usual nicks found on these rare pieces. While it is not a gem coin, it is far above the average and a most acceptable specimen of this rarity. Ordinary specimens of this coin, which usually come fairly well nicked and worn, bring $500.00 and more.

Lot No. 2374

THE EXCESSIVELY RARE WASS & MOLITOR & CO.

TWENTY DOLLAR GOLD PIECE

1855 $20.00 Small head of Liberty, W. M. & CO. on diadem. Thirteen stars, date below. Reverse, small eagle with scroll above, 900 THOUS. Legend, SAN FRANCISCO CALIFORNIA. TWENTY DOL. Strictly very fine, with considerable original mint luster. The borders are slightly raised. Excessively rare and valuable. Back in 1925, in my Sale of the Judge Slack Collection, a similar specimen brought $325.00.

Lot No. 2375

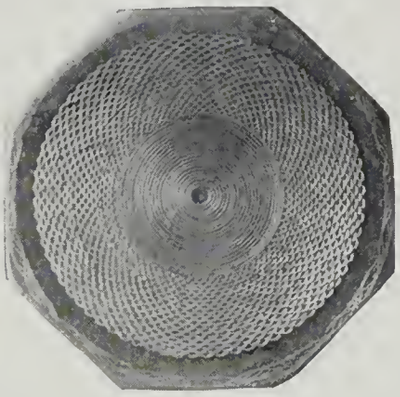
The Excessively Rare W. M. & Co. $10.00 Gold, Small Head Variety

1852 $10.00. So-called small head variety, well executed. W. M. & CO. on diadem, date below; thirteen six-pointed stars. Reverse, eagle with shield on breast, an olive branch in its right talon and three arrows in left. Legend, S. M. V. (Standard Mint Value) CALIFORNIA GOLD. TEN D. Very fine. Excessively rare. As far as I know, only two specimens are known.

In the 1937 Standard Catalog, this coin was listed as "only one known." An inquiry brought out the fact that the coin was held at $2,500.00. Since the discovery of this second specimen, I notice that in the current issue of the Standard Catalog the coin is listed at $1,000.00. From the illustration given in the Standard Catalog, the specimen here offered is in superior condition.

Lot No.
2376 **1852 $5.00.** W. M. & Co. Type similar to last, but the legend on reverse reads IN CALIFORNIA GOLD. FIVE DOLLARS. Extremely fine, with considerable original mint luster. By far the best specimen of this rarity I have ever seen, as it is usually found in very fair or good condition. In this remarkable condition I consider it of excessive rarity. This coin is of the well executed type, sharp. Listed in ordinary condition at $100.00. As mentioned before, I have never seen its equal or a specimen even approaching it in condition.

GOLD COINS ISSUED BY AUGUSTUS HUMBERT,
United States Assayer, San Francisco



Lot No. 2377

Magnificent Uncirculated Fifty-Dollar Gold Piece

1851 $50.00. Augustus Humbert. Variety with 887 THOUS. The obverse planchet on right edge has a very slight imperfection. There is a tiny nick above eagle's head, undoubtedly caused by another coin having been dropped on it. The coin is strictly **uncirculated,** with brilliant semi-proof surface. Almost equal to a proof. This is not a rare variety, but in this remarkable condition I consider it of excessive rarity. In all of my forty years of numismatic experience, I doubt if more than three or four equal $50.00 "Slugs" have passed through my hands. Equal specimens have brought up to $1,000.00. I consider it at least five hundred times as rare as an ordinary specimen of the Slug. I know of a similar specimen, sold in the last few months for $750.00. This coin has been in the Dunham Collection for over thirty years.

(The photograph of this beautiful $50 gold piece is very far of "just." The coin is far superior than the illustration signifies. The coin is to be seen to be appreciated.)

Lot No.

2378 **1851 $50.00.** Same variety as last. The average "garden variety." The coin can be classed as about fine. The small lettering on the border to right and lower right is weakly struck, but it is free of any serious nicks or dents. A specimen that usually retails now for about $200.00. In much demand.

2379 1852 **$10.00.** Augustus Humbert. Eagle with shield and ribbon as on the $50.00 Gold Piece. 884 THOUS. Reverse, inscription and date in four lines on tablet on engine-turned design. Fine. Scarce. Perfect die.

2380 1852 **$10.00.** Augustus Humbert. Same type as last but variety with heavy die break across reverse. Fine. Very scarce.

CALIFORNIA GOLD COINS ISSUED BY THE UNITED STATES ASSAY OFFICE, SAN FRANCISCO

Lot No.

2381 **1853 $20.00.** Eagle with shield and ribbon as on the $50.00 Gold Piece, 900 THOUS. Reverse, inscription and date in four lines on tablet on engine-turned design. Just a shade from uncirculated, with frosty mint surface. Not a rarity, but quite rare so choice. Seldom found better than good to fine. Cost $50.00 many years ago.

2382 1852 **$10.00.** U. S. Assay. Type as last, but with 884 THOUS. Very fine. Very scarce, especially so choice. Light scratch on obverse, hardly noticeable.

2383 1853 $10.00. Same type as last, but with 900 THOUS and inscription on back in five lines instead of four. Practically uncirculated, with considerable mint luster. Very scarce variety, in fact the rarest variety of the $10.00 Gold Pieces of this issue, and especially rare so choice. Listed at $50.00 in ordinary condition.

GOLD COINS ISSUED BY MOFFAT & CO.

2384 1849 **$10.00.** Type of regular issue, but with MOFFAT & CO. on diadem. Reverse, S. M. V. CALIFORNIA GOLD TEN D. Fine; slight planchet break below date. Rare. Listed at $75.00.

2385 1849 **$5.00.** Type as last. Variety with die break connecting value. Pin-point nick in obverse field. Very fine, with some luster. Very scarce so choice.

2386 1850 $5.00. Variety with small eagle, small letters on reverse, and long pointed arrows. About fine. Very scarce.

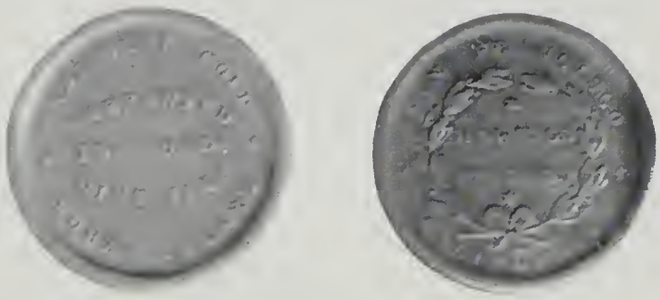
2387 1850 $5.00. Same type as last but variety with larger eagle and shorter heavier arrows and larger letters. Very fine.

BALDWIN & COMPANY

2388 1850 **$5.00**. Type of regular issue, but with BALDWIN & CO. on diadem. Reverse, same as general issue of the California Half-Eagles. Slight flake on lower obverse edge. Fine, especially for this coin. Very rare. Listed at $150.00.

MASSACHUSETTS & CALIFORNIA CO.

2389 1849 **$5.00.** Arms of California. Reverse, value in wreath and name of Company in legend. Struck in copper. Fine. Very rare. There are only three specimens known in gold, of which only one was ever offered at auction, in the Lawrence Sale, in 1929, where it brought $7,-900.00. While the copper specimen is not as rare, but only a few specimens are known to exist, and have sold up to $150.00.



MORAN & CLARK, SAN FRANCISCO

Lot No.

2390 **$10.00.** Obverse, CALIFORNIA GOLD. MORAN & CLARK. In center, in three lines, WARRANTED 10 DOLLS. MINT VALN. Reverse, wreath enclosing in two lines, 11 DWTS. 8 GR. 20 1/2 CARAT. The second A is over E, as the die apparently was first cut to read CARET. Small milling on border; milled edge. Copper. Extremely fine, with light olive luster. Excessively rare. A specimen in the Nygren Sale, seventeen years ago, brought $185.00.

COLORADO GOLD COINS

The Extremely Rare Colorado Twenty-Dollar Gold Piece

2390-A 1861 **Twenty-Dollars.** Clark, Gruber & Co. Liberty head, diadem inscribed PIKES PEAK: date below; thirteen stars. Reverse, type of regular issue of Double Eagle, legend, CLARK GRUBER & CO. DENVER. TWENTY D. Extremely fine. A minute nick on cheek; considerable original mint luster. Struck in light yellow gold. This particular coin is never found well struck up. This is one of the best specimens I have ever seen of this great rarity. Late records up to $300.00. Listed at $350.00 and certainly worth it.

2391 1860 **$10.00.** PIKES PEAK GOLD. Clark Gruber & Co. View of Pikes Peak. Extremely fine with mint luster. One of the most popular and most attractive of the Pioneer Gold Coins. Listed at $90.00 and has a higher record.

2392 1861 $10.00. Liberty head, diadem inscribed PIKES PEAK. Reverse, type of regular issue. Very fine, bold impression. Scarce and in demand. Listed at $35.00, but I believe it is just about as rare as the 1860.

2393 1860 **$5.00.** Clark & Co. Practically uncirculated, sharp. Minute die flake at top of the word GOLD. Rare so choice, more so than the $10.00.

2394 1861 $5.00. Clark, Gruber & Co. Very fine. Rare.

2395 1861 **$2.50.** Clark, Gruber & Co. Very fine. Very scarce. Record up to $30.00. Listed at $25.00.

2396 1861 $20.00. Clark, Gruber & Co. Type of regular issue. Struck in copper and gilted. About uncirculated; sharp. Very scarce.

2397 1860 $20.00. View of Pikes Peak. Clark, Gruber & Co. Struck in copper. Uncirculated; light brown with traces of original mint red. Very scarce so choice.

Lot No.

OREGON TERRITORY $5.00 GOLD COIN

Reverse, in center, in four lines, 130 G. NATIVE GOLD. 5 D. Legend, OREGON EXCHANGE COMPANY. Plain edge. The coin had apparently been worn as a charm and loop skillfully removed from edge. Very good. Very rare. Listed up to $200.00.

UTAH OR MORMON GOLD COINS

2399 1849 **$5.00.** Clasped hands above date in center; around, G. S. L. C. P. G. (Great Salt Lake City Pure Gold.) FIVE. DOLLARS. Reverse, Bishop's hat above all-seeing eye; legend, HOLINESS. TO. THE. LORD. Plain edge. Very fine, unusual bold impression for this coin. Sharp and perfect. Rare. Listed at $60.00.

2400 1849 **$2.50.** Same type as last. Nick on edge, otherwise very fine. Extremely rare. Next in rarity to the $20.00 piece. Listed at $150.00. Recent record $105.00.

2401 1860 $5.00. The rare and interesting variety with lion reclining, date below, Holiness To The Lord in Mormon characters. Reverse, Eagle and beehive; value, 5. D. below. ENCASED POSTAGE STAMPS OF THE UNITED STATES

One of the Most Interesting Series of "Necessity Money" Ever Issued

(The following is condensed from an article written by Edgar H. Adams for MEHL'S NUMISMATIC MONTHLY, 1909. Mr. Adams was author of the Standard Work on the Pioneer Gold Coins and of the Pattern Coins of the United States, and many other excellent numismatic works and articles. He was an experienced writer and historian. Was editor for a number of years of the NUMISMATIST, official publication of the American Numismatic Association.)

With the hoarding of "hard money" during the early months of the war between the States, all kinds of coin became very scarce, so much so, that in New York City, the scarcity was so acute that people had to walk due to the lack of small change to pay trolley fare. Merchants and individuals resorted to many makeshifts for small change. Due bills printed on bits of paper and cardboard, and metal tokens in similitude to cents were numerously issued and used by tradesmen for change-making purposes. Postage stamps were also used to a great extent and on account of their certain value, were preferable to the other makeshift money, but on account of their adhesive and easy tearing qualities, they were not very practical.

In 1862, J. Gault of New York, devised and received a patent for a metal case with mica face covering, in which a postage stamp could be placed and protected, the back of the case providing for imprint or advertising. What promised to be a profitable patent for Gault had but a brief period for market, for soon after he started to exploit this product the Government issued "Postage Currency," exchangeable for postage stamps, which was soon followed by an extensive issue of Fractional Currency which relieved the small change stringency.

The various denominations of Encased Stamps now known are 1, 2, 3, 5, 10, 12, 24, 30, and 90 Cents. With the various back imprints, about 150 varieties are recorded.

Some firms issued Encased Stamps of every denomination mentioned, while others issued but two to six of the denominations. In nearly every instance it is found that the denominations of 12, 24, 30 and 90 Cents are the rarest. The rarity being due to the fact that some of the firms ordered but a single, or at least, but a very few of each denomination above the 10 Cents, and before deciding upon their issue, the law was passed forbidding the use of anything of the semblance of money by private parties.

The series of Encased Postage Stamps is not only one of the most interesting issues of Necessity Money of the world, but it also is a most interesting series of the "coinage" of the United States. It is of equal interest to stamp collectors as well as to coin collectors.

UNITED STATES ENCASED POSTAGE STAMPS

The first collection of Encased Postage Stamps of any consequence offered for sale was that of the Wilcox Collection, in 1901. This collection consisted of 88 different varieties and the catalogers, S. H. & H. Chapman, described it as "The finest Collection ever sold."

The next Collection was that of Hiram E. Deats, Flemington, N. J., sold by Ben G. Green in 1906. Here is what Mr. Green had to say about this Collection:

> "This Collection was commenced a number of years ago, 65 varieties of which were purchased by Mr. Deats of the late Ed. Frossard, in 1890. These were gradually added to from various sources, until the Collection became the largest and finest ever brought together. The largest number before sold was the Collection of C. S. Wilcox, by the Chapmans, in 1901, consisting of 88, several of which were bought by Mr. Deats. All encased Stamps are scarce, most of them rare, and many very rare. Probably a few in the following are unique, as it is now believed that some firms simply ordered one denomination each above the ten cent value."

The next and last large Collection of Encased Stamps offered for sale was that of the Ben G. Green Collection, sold in May, 1914. The cataloger had this to say about the Collection:

> "The following Collection of 133 varieties of encased postage stamps, assembled by the late Ben G. Green, is one of the finest in the country, containing two unique pieces besides a great number of other rarities. This is the second largest Collection of encased stamps ever offered for sale and contains more rare specimens than the Collection of H. E. Deats, sold in 1906, which contained many rarities from the sale of the Frossard Collection. Special attention is called to the ribbed frame specimens, some of which are extremely rare."

The Green Collection was purchased in its entirety by Mr. Dunham. He continued to add to it as the opportunity offered. From the above will also be noted that the Collection here offered is not only the largest Collection of its kind ever brought together, including the rarest varieties, some undoubtedly unique. But it also has an additional interest and value in that of its "pedigree," as it represents the achievement or culmination of efforts of such numismatists as Frossard, Wilcox, Deats, Green and Dunham!

Many collectors have suggested that this unique Collection of Encased Postage Stamps, which is the results of more than a half century of intelligent collecting effort by some of our greatest collectors of the past, should not be broken up. I am inclined to agree with them.

While bids will be accepted for the individual Encased Stamps, I reserve the right to sell the Collection as a whole, Lot Nos. 2412 to 2576 inclusive.

A careful and conservative appraisal of the Collection, based on listed prices, past records, and estimated values of the unlisted and unpriced rarities, places the value of the Collection at approximately, $4,500.00 (of course, several times this amount, or for that matter, any amount of money, could not duplicate the collection in an average lifetime. Many, many of the specimens are simply unobtainable). The entire Collection, therefore, has a starting bid or limit of $3,500. The collector who is fortunate to secure this unique Collection at the low starting bid, or even well above it, will really have something "no one else has," or is very likely to ever have, and, of course, a Collection that will be a most gratifying source of possession and certainly an equally profitable investment as well.

The Collection is most beautifully arranged, each Encased Stamp in a separate neat box, properly described, and the entire Collection is housed in a specially made case of plush trays in a full leather case. (The case alone cost $35.00). In my opinion the Collection is certainly worth every bit, and very likely much more, than the estimated value of $4,500.

2446 **12 Cents.** Black. The mica is very slightly nicked, but otherwise it is very fine. Of excessive rarity. Not priced in the Standard Catalog and not in the Wilcox nor Deats sales. We can appreciate the rarity of these stamps when we consider that both Wilcox and Deats were active collectors from fifty to seventy-five years ago and endeavored to obtain a complete set of these encased stamps. An encased stamp of this rarity, in proportion to coins of equal rarity, should bring over $100.00.

Joseph L. Bates, Boston.

Burnett's Cocaine Kalliston.

2461 1 Cent. Light blue. Extremely fine; just about perfect. Rare. Sold at $4.00 in the Wilcox Sale forty years ago.

2462 3 Cents. Pink. Reverse fully silvered. Perfect. Rare.

2463 5 Cents. Light brown. Part of original silvering on back. Extremely fine. Very rare.

2464 10 Cents. Medium green. Perfect. Very rare.

2465 **12 Cents.** Grayish-black. Very light and small nick in mica, otherwise extremely fine, and extremely rare. Not in the Wilcox Sale. Not priced in the Standard Catalog.

2466 **24 Cents.** Violet color. Excessively rare. Not priced in the Standard Catalog, and not in the Wilcox nor Deats Sale. In the Sale of the Ben G. Green Collection, in 1914, from whence this specimen comes, the cataloger stated that as far as he knew, this encased stamp may be unique, as none have been offered at auction before. Just about perfect. It is dangerous to call an item "unique," but I do know that this is the first time I have ever seen, heard of, or handled the 24-Cent Encased Stamp of this issue.

2467 **30 Cents.** Orange. Short light crack in mica on right obverse. Otherwise extremely fine and just as rare as the previous lot. This denomination of this issue was

also considered unique when sold in the Green Collection, twenty-seven years ago. Not in the Deats nor Wilcox Collections, the two largest Collections of Encased Stamps ever offered for sale prior to this one. This is only the second time in the history of American numismatics where a set of the denominations to the 30c of this particular issue of Encased Stamps has ever been offered. The last time it was offered, it was the identical set, in the Green Sale, in 1914.

Burnett's Standard Cooking Extracts.

Lot No.

2468 1 Cent. Indigo blue. Mica slightly cracked at bottom, otherwise very fine, with parts of original silvering on back. Very scarce.

2469 3 Cents. Light shade pink. About perfect. Rare.

2470 5 Cents. Reddish-brown. Mica slightly cracked around edges. Very fine. Rare.

2471 10 Cents. Light green. Very fine. Rare.

2472 10 Cents. Medium green. The excessively rare variety with **ribbed frame.** Not in the Wilcox nor Deats Collections.

2473 **12 Cents.** Black. Extremely fine, with considerable original silvering on back. Extremely rare. Not priced in the Standard Catalog.

Arthur M. Claflin, Hopkinton, R. I. Complete Set. Offered for the First Time.

2474 1 Cent. Blue. Just about perfect. The reverse unusually boldly struck. Extremely rare. Listed at $50.00. Not in the Green Collection.

2475 **5 Cents.** Light brown. Just about perfect, with some original silvering on front, and all on back. Excessively rare. I can find no record of its having been offered before. Not in the Wilcox, Deats nor Green Collections. Not priced in the Standard Catalog.

2476 **12 Cents.** Black. Just about perfect. Excessively rare. This is from the Green Collection, but none were in the Deats nor Wilcox Collections. Not priced in the Standard Catalog. To the best of my knowledge, this is the first time that a complete set of all the denominations of the Claflin issue has ever been offered.

H. A. Cook, Evansville, Ind.

2477 **10 Cents.** Light green. Very fine. Excessively rare. Not priced in the Standard Catalog. I find that a specimen was offered in the Wilcox Sale and also one in the Deats Sale. And from the catalog description, I feel confident that it is the same stamp. However, the Green Collection did not have it and undoubtedly Mr. Dunham secured this from another source. H. A. Cook

only issued two denominations, 5 and 10 Cents. I can find no record of the 5 Cent stamp.

Dougan, Hatter, New York.

Lot No.

2478 3 Cents. Very fine. Very rare. While it is recorded that Dougan issued the Encased Stamps in the denominations of 1 Cent, 3 Cents, 5 Cents and 10 Cents, but I can find only one record of the 1 Cent in the Wilcox Sale, and no record of the other denominations.

Drake's Plantation Bitters. Complete Set. Very Likely Unique As a Set.

2479 1 Cent. Bright dark blue. Perfect. Scarce.

2480 3 Cents. Bright pink. About uncirculated; traces of original silvering on back.

2481 3 Cents. Dull pink. Extremely fine.

2482 5 Cents. Medium brown. Plain frame. Mica cracked at bottom, otherwise very fine.

2483 5 Cents. The extremely rare variety with **ribbed frame.** Bright brown. Just about perfect. Not in the Deats Collection and not even in the Green Sale.

2484 10 Cents. Light green. Perfect. Very scarce.

2485 12 Cents. Black. Mica slightly scratched, otherwise about perfect. Rare.

2486 **24 Cents.** Red lilac. Perfect. Extremely rare and valuable. Not in the Wilcox Sale. This is undoubtedly from the Deats Collection, cataloged and sold by Ben G. Green, in 1906, thirty-five years ago. There it was stated "believed to be unique." It brought then $60.00. Certainly worth more than double today.

2487 **30 Cents.** Orange. Extremely fine, just a shade from perfect. Also from the Deats and Green Collections. Probably unique. Not priced in the Standard Catalog. This also brought $60.00 in the Deats Sale.

2488 **90 Cents.** Medium blue. Perfect, with traces of original silvering on back. Excessively rare. Very likely unique. From the Deats and Green Collections. I have no record of another specimen having been offered. Not priced in the Standard Catalog. I am quite confident that this set of all the denominations of this issue is the only set of its kind known.

Ellis McAlpin & Co., Cincinnati. Complete Set.

2489 3 Cents. Dull pink. Very fine. Excessively rare. The first I have ever seen. Not in the Wilcox, Deats, nor even in the Green Collections. Not priced in Standard Catalog.

Lot No.

2490 **5 Cents.** Medium brown. Very fine, with considerable original silvering on back. Extremely rare. From the Deats and Green Collections. Not priced in Standard Catalog. This item brought $20.00 in the Deats Sale, thirty-five years ago.

2491 10 Cents. Medium green. About perfect. Very rare.

2492 **12 Cents.** Bright black. Mica slightly cracked in upper right corner. Traces of original silvering. Extremely fine. Extremely rare. Not in the Deats or Wilcox Sales. This is from the Green Collection.

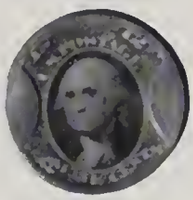
2493 **24 Cents.** Gray lilac. Perfect, with back partly silvered. Excessively rare. Not in the Wilcox, Deats, nor even Green Collections.

G. G. Evans, Philadelphia.

2494 **1 Cent.** Dull blue. Extremely fine, just about perfect. Extremely rare. Not priced in Standard Catalog. Not in the Green Sale. The Evans Encased Stamps are said to be infringements on the Gault patent and to have been made in Philadelphia. The work is somewhat inferior to that of Gault.

2495 3 Cents. Bright reddish-pink, almost full red. Very fine. Very rare. From the Deats and Green Collection.

Gage Brothers & Drake, Tremont House, Chicago. Complete Set.



2496 1 Cent. Indigo blue. Extremely fine. Very rare. Not in the Green Collection.

2497 5 Cents. Light brown, bright. Uncirculated, with nearly full original silvering. Very scarce, especially so choice.

2498 5 Cents. Medium dull brown. Very fine.

2499 10 Cents. Light green. Extremely fine, with nearly full silvering on back.

2500 **12 Cents.** Medium black About perfect with traces of original silver on back. Extremely rare. Not in the Wilcox nor Deats Collections. I believe that this is the first time a complete set of this issue has ever been offered. The 12 Cents is not priced in the Standard Catalog.

J. Gault. The Inventor of the Encased Stamps.

COMPLETE SET, Including the Two-Cent. This Set is Undoubtedly Unique and is Offered for the First Time.

2501 1 Cent. Bright light blue. Perfect.

Lot No.

2502 **Two-Cents.** Portrait of Jackson. Black. Perfect. Exceedingly rare. This specimen was considered unique by Mr. Dunham until about twenty years ago when a specimen was discovered by the St. Louis Stamp & Coin Co. When they offered it, Mr. G. Butz of Chicago immediately made a special trip to St. Louis to secure it. Mr. Butz afterwards sold his entire Collection to the eminent Chicago collector, Alden Scott Boyer. In 1925 I purchased Mr. Boyer's entire Collection, including the Two-Cent Encased Stamp, and afterwards sold it to the late Col. E. H. R. Green. The specimen in this Sale is from the Ben G. Green Collection, where it was cataloged as follows: "Mr. Green claimed that he secured this piece from an absolutely authentic source and that it is a unique specimen."

Like many other great rarities which are almost unique, there is always a "giraffe story" connected with it—"there ain't no sech animal." There is absolutely no question as to the authenticity of this specimen. The fact that numismatists of the type, standing and experience such as the late Mr. Ellis of the St. Louis Stamp & Coin Co., Mr. B. G. Johnson, its present owner, Mr. Alden Scott Boyer, Mr. Ben G. Green and Mr. Dunham, passed on the authenticity of the piece, and my own humble conviction, based upon more than forty years of numismatic experience, is more than sufficient evidence of the authenticity of this great rarity. The Boyer specimen, when sold to Col. Green, was valued at $500.00.

2503 3 Cents. Bright reddish-pink. Perfect.

2504 3 Cents. Light pink. Perfect.

2505 5 Cents. Medium brown. Plain frame. About perfect. Scarce.

2506 5 Cents. Light brown. The extremely rare variety with **ribbed frame.** Not in the Deats Collection.

2507 10 Cents. Bright green. Plain frame. Perfect.

2508 10 Cents. Darker green. The excessively rare variety with **ribbed frame.** A tiny nick in mica, otherwise perfect. Not in the Deats Collection.

2509 12 Cents. Bright black. Plain frame. About perfect. Very rare.

2510 12 Cents. Black. Different shade from last. The excessively rare variety with **ribbed frame.** About perfect.

2511 24 Cents. Gray-lilac. Plain frame. Perfect; stamp unusually well centered. Very rare.

2512 24 Cents. Purplish-lilac. **Ribbed frame.** Excessively rare.

2513 24 Cents. **Red-lilac.** The stamp alone is cataloged at $75.00. Excessively rare.

Lot No.

2514 30 Cents. Yellowish-orange. Very fine. Very rare. Listed at $40.00.

2515 30 Cents. Darker orange, and **ribbed frame.** Excessively rare. Do not recall of having seen another specimen. This is from the Deats and Green Collections.

2516 **90 Cents.** Dull blue. Very fine. Extremely rare. Retails at over $100.00 when obtainable. In my more than forty years of numismatic experience, I doubt if more than six specimens have passed through my hands. The stamp alone catalogs at $50.00.

The above set is really a remarkable one, and I doubt if an equal set exists.

L. C. Hopkins & Co., Cincinnati.

2517 5 Cents. Bright brown. Perfect. Excessively rare. Not priced in the Standard Catalog. From the Deats and Green Collections. Back in 1906, this item brought $20.25 in the Deats Sale. Hopkins only issued 3 Cent and 5 Cent stamps.

Hunt & Nash, Irving House, N. Y.

2518 5 Cents. Dark brown. Plain frame. Very fine. Extremely rare. Not priced in Standard Catalog.

2519 5 Cents. The excessively rare variety with **ribbed frame.** Ridge in upper part of mica, otherwise perfect. From the Deats Collection.

2520 10 Cents. Dark green. **Ribbed frame.** About perfect. Excessively rare.

2521 12 Cents. Dark black. About perfect. Very rare.

2522 **24 Cents.** Bright lilac. Not in the Wilcox Sale. This is from the Deats and Green Collections. In the Deats Collection it was cataloged as "probably unique." Not priced in Standard Catalog.

2523 **30 Cents.** Bright orange. **Perfect.** Not in the Wilcox nor even Deats Collections. This is from the Ben G. Green Collection, where the cataloger stated, "I can find no record of this piece ever being offered at auction before. Probably unique." Not priced in Standard Catalog, and undoubtedly one of the rarest Encased Stamps of the entire series.

Kirkpatrick & Gault, N. Y.

2524 5 Cents. Dark brown. Mica slightly cracked, otherwise very fine. Scarce.

2525 10 Cents. Light green. Perfect, with traces of original silvering on back. Rare, especially so choice.

Lot No.

2526 12 Cents. Bright black. Mica slightly dented at bottom, otherwise perfect. Rare.

2527 **24 Cents.** Red lilac. Perfect, with goodly portion of original silvering on back. Extremely rare. The stamp alone catalogs at $75.00.

2528 **24 Cents.** Grayish-lilac. Perfect, with traces of original silvering. Extremely rare. Not priced in Standard Catalog.

2529 **24 Cents.** Dark gray. Very fine. Extremely rare.

2530 **30 Cents.** Orange. Just about perfect. Extremely rare. Not priced in Standard Catalog.

2531 **90 Cents.** I believe this to be the excessively rare dull blue variety stamp. However, I have discovered long time ago that as an expert philatelist, I am just a fair numismatist, so I do not guarantee this stamp to be the rare shade which catalogs at $2,500.00. BUT the Encased Stamp of this denomination and this issue is exceedingly rare. The item is about perfect. It is not priced in the Standard Catalog. It is from the Deats and Green Collections. It was not in the Wilcox Sale.

Lord & Taylor, N. Y.

2532 **1 Cent.** Indigo blue. Perfect. Excessively rare. From the Green Collection. Not in the Wilcox nor even the Deats Sales, and not priced in the Standard Catalog. One of the rarest of the entire issue.

2533 **3 Cents.** Bright brownish-red. Perfect; almost complete silvered back. Excessively rare. Not even listed in the Standard Catalog.

2534 **5 Cents.** Dark brown. Mica slightly cracked, otherwise very fine. Extremely rare. Not in the Wilcox Sale. This is from the Green Collection. A specimen in the Deats Collection brought $20.00 in 1906. It is not now priced in the Standard Catalog.

2535 10 Cents. Dull green. Extremely fine. Rare.

2536 **90 Cents.** Bright blue. Perfect. Excessively rare. Not in the Wilcox nor Deats Collections. This is from the Green Collection where it was cataloged as "Unique. A great rarity." JACKSON CENTS OR HARD TIMES TOKENS

The Largest and Most Complete Collection Offered in a Decade or Two

THE HARD TIMES TOKENS

(By A. Z. Reed as published in the Standard Catalog)

The Hard Times Tokens were issued during a period of twelve years of stirring political events. President Andrew Jackson disapproved of a fiscal system under which public funds were deposited in a single privately controlled institution, the Bank of the United States. On July 10, 1832, accepting the challenge of Henry Clay and the financial interests of the country, he vetoed a bill to continue the Bank in existence after the expiration of its charter in 1836. This action transformed the personal animosities of rival politicians into a sustained popular controversy over fundamental political principles. The already dominant Republican party of Thomas Jefferson split into two violently opposed groups. On the one side Clay's supporters, reinforced by former Federalists, fought vigorously to restore the Bank. After their failure, as "National-Republicans," to defeat Jackson for reelection in 1832, they broadened their ranks to include all who attacked his methods as dictatorial and unconstitutional, and campaigned under the name of "Whigs." On the other side the "Democratic-Republican" or, more briefly, the "Democratic" party of Jackson and of his successor Martin Van Buren not only succeeded in warding off these attacks but inaugurated supplementary reforms. They ceased to deposit governmental receipts in the central Bank, while it was still alive. After state banks had shown themselves to be unsafe depositaries, they established the independent sub-treasury system. They were responsible also for changing the coinage ratio of gold and silver so as to bring gold coins for the first time into circulation, and they refused to accept anything except metallic currency in payment for public lands. Van Buren's defeat for reelection by the Whig candidate, William H. Harrison, in 1840, proved to be only a temporary setback to the financial policy of the Democrats, who returned to power in 1844. The period ends with the emergence, that year, of new political issues, notably that of the annexation of Texas, foreshadowing war with Mexico and a reopening of the slavery controversy.

Two causes were responsible for the large number of private issues in copper, brass and white metal during this period. In the first place, the suffrage had recently been broadened and there was a general shift from the choice of presidential electors by legislatures to our present system of direct vote by the people. This change in political methods stimulated a corresponding popularization of one of the two main branches of numismatics, medals as distinguished from coins. Cheap and crudely executed campaign pieces, the forerunners of our present campaign buttons and pins, appeared possibly as early as 1824 and certainly by 1828, but in no great number until 1834. They were then first struck, with improved workmanship, on flans of approximately the size of the official large cent.

A second powerful stimulus to the production of tokens was provided by the economic depression to which the period owes its name. Times were intermittently "hard" from the winter of 1833-34 until 1842, being at their worst during the twelve months following May 10, 1837, when all the banks in the country were unable to meet their obligations. Jackson's radical reforms were unsettling in themselves, and their effects were deliberately aggravated by the Bank of the United States in the hope of either frightening or overturning the administration. Credit, moreover, had been greatly overextended, both at home and abroad, and a severe reaction was in any event due. The attendant discrediting of large banknotes and hoarding of gold left, as the only medium available for current cash payments, subsidiary silver, or, when this also was hoarded, "shinplasters" for small amounts, issued by municipalities, individuals or banks. This, in turn, made it necessary to use copper pieces for small payments formerly made in silver. There was also a great increase in the number of articles, such as penny newspapers, which were priced at less than the silver half dime. The result was to create a demand for copper money, which the official coinage was unable to meet. Private enterprise rose to the emergency by issuing pieces of the size, and usually in the metal, of the contemporary large cent.

The major portion of this great Collection of Hard Times Tokens was originally formed, over a period of many years, by the eminent Numismatist, Mr. Carl Wurtzbach of Lee, Massachusetts, from whom Mr. Dunham purchased the Collection. Mr. Wurtzbach is a Past President of the American Numismatic Association. He is a recognized expert and authority on several series of the American Coinage. The fact that this Collection was originally formed by him lends much interest and value to this unusual collection of one of the most historical and interesting series of our coinage.

ANCIENT COINS OF GREAT HISTORICAL INTEREST

Silver Coins of Judaea, Including Gem Specimens of the Shekel and Half Shekel

Lot No.

3148 Judaea, B. C., 143-135, Shekel of Simon Maccabaeus. Year 4. A cup or chalice, the date above, legend "Shekel of Israel." Reverse, a triple lilly; inscription, "Jerusalem the Holy." All inscriptions and date, of course, are in ancient Hebrew characters. Extremely fine; just a shade from uncirculated. One of the finest, if not the finest specimen, of this rare and historical coin I have ever seen. This identical coin is from the great Jenks' Collection, lot 162. Sold in 1921. This coin at that time realized $46.00. It is worth a great deal more today, as far inferior specimens have sold at well over $50.00. This coin was erroneously described in the Jenks Catalog as of year 2. By referring to the plate it can easily be ascertained that the date of the coin is year 4. Extremely rare and in much demand.

3149 Simon Maccabaeus. Half Shekel of Year 2. Same type as last. Evenly struck and well centered with almost complete beaded border. Extremely fine, bold impression. Very rare; more so than the Shekel. This rarity is also from the Jenks' Collection, lot 163. It brought $40.00 twenty years ago. Worth a great deal more today.

3150 Simon Bar Cochba. Shekel, 133-135 A. D. View of Temple. Reverse, an Ethrog and Lulab. In ancient Hebrew characters, "First Year of the Redemption of Israel." Madden states, "Generally speaking, the Temple is a suitable symbol of this period, as the last Palladium around which men rallied, and its representation on these Shekels can thus be explained." Cavedonia thinks that the obverse type of these Shekels represents the Sacrarium of a Jewish Synagogue, the middle being the arc, containing the rolls of the sacred books. Fine. Very rare and of highest historical interest. Record over $50.00.

3151 Simon, Drachm or Half Shekel, struck during the second revolt of the Jews. A cluster of grapes with the word Simon in ancient Hebrew. Reverse, a three-string lyre with inscription, translated, "The Deliverance of Jerusalem." Fine to very fine. Rare. (Cost $17.50.)

3152 Simon, Drachm or Half Shekel, struck during the second revolt, 133-135 A. D. Simon in ancient Hebrew characters within wreath. Reverse, inscription translated, "The Deliverance of Jerusalem." SILVER DOLLARS OF THE WORLD

The following is a fine collection of dollar size silver coins of countries other than the United States. They cover practically every part of the world and from nearly every period. Many are from countries no longer in existence. And with the present rapid changes of boundaries, etc., these coins make an interesting and welcome addition to any collection. For the benefit of the younger collectors, attention is called to the fact that most of the following are scarce and many rare. In order to conserve time, bids of less than $1.00 each will not be considered for any of the following foreign silver coins here offered, as all of them are worth more than the minimum limit. But the records or cost prices mentioned are simply mentioned as a form of guidance and not as a limit.

UNITED STATES FRACTIONAL CURRENCY

The United States Fractional Currency, to my mind, is one of the most beautiful and interesting series of "American Money." The causes which prompted its issue is one of the most historically interesting of our entire history. For some reason or other, there has not been a great deal of interest in this series. And the wise collector would do well to invest in these beautiful and scarce notes while they are obtainable at very moderate prices. They will add a great deal of interest, charm, and value to any collection.
One of the most complete collections offered in many years. Including all of the rare principal varieties, including the rarest of all notes of this series, the 50¢ Spinner note with autograph signatures of Allison and New.

REMARKABLY COMPLETE COLLECTION OF CONFEDERATE CURRENCY

This great Collection, comprising over Two Thousand Five Hundred (2,500) all different varieties, was formed by the great Washington collector, B. H. Collins. Mr. Collins was employed in one of the Government Departments for a great number of years, soon after the war between the States, at which time these notes were rather plentiful.

These notes, of the Confederate States of America, comprise one of the most interesting and historical series of money ever issued in the world. It represents a nation of some Eleven Million people that existed for several years within the United States. The rise and fall of the Confederacy can easily be studied by the series of these Notes. Interest in them has been on the increase for some time.

This collection is attributed according to Bradbeer, whose work, published in 1915, is the standard on the subject today.

(As this is a specialized collection, formed over a period of some twenty-five years, and the notes are all in far-above-the-average condition, bids for less than 25¢ per note will not be considered on any items in this collection. I reserve the right to sell the entire collection as a whole if the bid warrants, or is more than the total amount of the separate bids. According to the rarity given by Bradbeer and his valuation placed upon such rarities, a conservative estimate of the catalog value of this collection is $1,400.00. I doubt if such a collection as this can now be formed in the average lifetime of a collector.)

(Bids may be made for the entire collection as a whole, Lot Nos. 3974 to 4100.)

I Respectfully Invite You

to write me whenever the spirit moves you to part with **your** Collection.

The manner in which this great Collection is cataloged; the wide publicity given it, and the sensational response received from Collectors, is more convincing than anything I might tell you of the fair, liberal and conscientious manner in which **your** Collection will be handled by me.

Please remember that I have been engaged in the numismatic profession for more than forty years. That by far the greater preponderance of all fine Numismatic Collections offered in the United States during the past forty years have been successfully handled by me.

My financial responsibility is more than sufficient to give you that inner feeling of absolute safety. Also, if you desire it, you may have a liberal cash advance without interest charge. No Collection is too small, and certainly none too large, for me to handle successfully either at direct purchase for immediate full cash payment or for sale at auction on most liberal terms.

Again, I respectfully invite you to write me. A prompt and cordial reply is promised you without the slightest obligation on your part.

Dear Friend:-

This Catalog is the realization of my lifelong ambition.

As a collector yourself, you can appreciate what it means to an enthusiastic collector - (and this I claim to be) - to someday have your dream come true of handling an original 1804 Dollar ! An 1822 Half-Eagle ! An 1875 $3.00 Gold Piece ! An 1802 Half-Dime: All the rare Half-Eagles, Quarter-Eagles, Gold Dollars, and practically all of the different silver and copper coins of the United States.

This Catalog has been more or less a labor of love with me, - a sort of numismatic monument to the gentleman who spent more than a half century in bringing together this remarkable Collection.

I do not claim that this Catalog is - nor did I intend it to be - a "scientific work". Have endeavored to make it of interest and easily understandable to every collector of coins, be he young or old, in years or experience.

How well I have succeeded in doing this, YOU and you only can tell me. And this I DO ask of you. Your opinion, your criticism, or any comment you care to make, I most earnestly request you to communicate with me. Will you just kindly jot down your comment on the back of this letter, favorable or unfavorable, what you think of this Catalog, and return it to me now. I will really and truly appreciate it.

Cordially yours,

B. Max Mehl

My dear Sir:-

For more than a quarter of a century I have dreamed of and hoped some day to have the privilege of cataloging the Great Dunham Collection. I was rewarded with this great opportunity. And now, after planning and working almost constinuously for a whole year, I have finally produced my "Dream Catalog".

Just placed in the mail today, Insured Post, your copy of the great Dunham Catalog.

From the advance publicity I have given this great Sale, I know you are expecting something extraordinary not only in catalog production, but also in numismatic offerings. When you receive this Catalog, I am confident that you will be awed and thrilled with it and that you will agree that it is all and more than we anticipated.

The interest in this Sale has been so enthusiastic that I have simply been swamped with orders for the Price List and Catalog. In fact it was soon evident that my initial order was so inadequate that it was necessary for me to twice increase the order of Catalogs. A total of 2500 Catalogs were published, of which number only an infinitesimal quantity is now available, and the price now is $5.00 per copy. This Catalog is now a "rarity".

Naturally, while we are centain that this Sale will be a great success, but my earnest desire now is to continue to break all records with a one hundred per cent. "attendance". You know that I can only attain this goal by having you represented at this Sale. Since this Collection contains coins and notes covering every branch of numismatics, I am certain there are some items of interest to you, which if you are fortunate to acquire will always prove a most gratifying source of possession to you. Therefore, won't you kindly stretch every possible point to send me some bids for this Sale, even if only for one lot.

Surely you realize that "pedigree" lends value, charm, and romance to a coin. A "Dunham Coin" in your Collection will do just that. I am sure that you want at least one or more items from this Celebrated Collection. I know you will be pleased with what you buy.

The execution of so many bids at so large a Sale is a herculean task. Will you make it a bit easier for me by sending in your bids early - now ? I'll certainly appreaciate it.

With many thanks, I am

Cordially yours,

Please be sure to read the "Terms of Sale" as printed in the Catalog.
